Supervision And Its Vicibitudes:

Supervision and its Vicissitudes Brian V. Martindale, Margareta Morner, Maria E. Rodriguez, Jean-Pierre Vidit, 2018-05-08 This book is primarily concerned with the application of psychoanalytic ideas to work in the public sector It largely deals with the type of supervision work with individuals teams and institutions that will often be in demand and useful in the public sector

Supervising and Being Supervised Jan Wiener, Richard Mizen, Jenny Duckham, 2017-03-14 Supervision is an essential constituent of analytic and psychotherapy training and a crucial part of ongoing professional development for all practitioners In spite of this little formal theory about supervision has been developed and for the most part learning to supervise has progressed using a simple apprenticeship model Supervising and Being Supervised aims to rectify this situation Jan Wiener Richard Mizen and Jenny Duckham draw together contributions from a number of experienced Jungian analysts who supervise to explore key aspects of the supervisory experience with the aim of developing a theory for analytically based work Part One explores the nature of the supervisor supervisee relationship Part Two looks at a number of the settings and applications of supervision and Part Three examines problems that might occur in supervision In the fourth and final part and drawing on the previous chapters the focus turns specifically to the challenges of developing a clear theory of supervision

The Inseparable Nature of Love and Aggression Otto F. Kernberg, 2012 In this book Kernberg first distinguishes then interrelates psychoanalytic clinical psychiatric and neurobiological perspectives in a variety of areas beginning with severe personality disorders and extending to love destructiveness mourning spirituality and the future of psychoanalytic inquiry Dr Kernberg is renowned for his work with borderline and narcissistic patients and in this book he offers new approaches to the diagnosis and treatment of the most severe personality disorders particularly the spectrum of severe narcissistic psychopathology His effort to relate psychoanalytic to neurobiological findings continues in two fascinating areas the study of sexual love and of religious experience and he examines object relations theory in relation to these two phenomena Kernberg s analysis of love and aggression is both bold and nuanced and will captivate the professional psychotherapist as well as the psychologically astute general reader

Supervising Psychotherapy Christine Driver, Edward Martin, Mary Banks, 2002-03-29 I enjoyed and was challenged by reading this book and learned from and with it It is useful for browsing and for a deeper exploration of chosen topics It offers a healthy enrichment for all who have a dynamic interest in the external and internal supervisory relationship I warmly recommend it British Journal of Psychotherapy This book is thoughtful scholarly and very well written The content is well set out in separate sections making it eminently readable It is solidly based on psychoanalytic theory highlighting the transformational impact of a supervisory process that is embedded in the dyadic relationships formed by the supervised patient supervisee and the supervisee supervisor This book has greatly enriched my understanding of the supervisory process and the organizational life in which it transpires It will be a richly informative resource for all involved in supervisory work Gemma Corbett Self Society Based on the view that supervision is in

itself both a developmental and a therapeutic process Supervising Psychotherapy examines the fundamental knowledge needed to become a skilled and effective supervisor Written by a highly experienced team of trainers and supervisors the book explores the triangular relationship which exists between supervisor therapist and the absent patient or client It describes in depth the complex dynamics which characterise this relationship while avoiding the pitfalls of unconsciously colluding with or controlling the supervisee In supervising the practice of others supervisors must draw not only on their experience as a therapist but also on a firm understanding of how people learn and of how organisational factors can impinge on therapy and supervision The book examines the interface between supervision and teaching and between supervision and organisation and offers guidance in relation to unconscious processes in supervision the supervisory triangle supervising groups supervising short term therapy ethical practice timing and ending of supervision For those who are in the process of becoming supervisors and for those who already practising Supervision in Psychotherapy is an enlightening and thought provoking read Mary Banks Christine Driver Gertrud Mander Edward Martin and John Stewart are all trained supervisors who have been or are currently involved in training others in supervision All are members of the British Association for Psychoanalytic and Psychodynamic Supervision BAPPS

Psychoanalytic Education at the Crossroads Otto Friedmann Kernberg, 2016-02-26 Training in psychoanalysis is a long and demanding process However the quality of education available is hugely variable across the world The structure of psychoanalytic education centered on the hierarchical training analysis system reflected a concerted effort to maintain a stable and high quality educational process However throughout time this system has become a major source of institutional contradictions that affect the training of candidates the scientific developments within psychoanalysis and the nexus of psychoanalytic theory and practice with the surrounding scientific social and cultural world Psychoanalytic Education at the Crossroads examines the ways in which group processes the hierarchal culture in institutes the influence of individual personalities the lack of research and the faults in supervision can all stifle creativity and hinder candidates progress In this compelling work Otto Kernberg sets out clear suggestions for how

these issues can be addressed and how he sees the future of psychoanalytic education across all psychoanalytic settings and schools of thought The first part of this volume is focused primarily on the analysis of the nature of these problems and their effects on the personal analysis and supervision of candidates on theoretical and clinical seminars on selection progression and graduation on educational principles and requirements developments of theory and technique and in particular limitation versus expansion of the realm of interests and applications of psychoanalysis The second part of this volume deals with proposals of solutions to the problems encountered and major suggestions for innovation in psychoanalytic education The author's work in this area has been hugely influential Kernberg has made a substantive difference in the development of psychoanalytic institutes and education and continues to do so Psychoanalytic Education at the Crossroads will be essential reading to anyone involved in psychoanalytic education whether as a psychoanalyst psychoanalytic psychotherapist trainee trainer or supervisor *Gift of Tears* Susan Lendrum, Gabrielle Syme, 2004-03-01 This thoroughly revised and updated edition of *Gift of Tears* includes new research and examples of recent events to help illustrate the effects of loss Containing a strong practical element the book guides the reader through the process of contemplating and eventually confronting their own relationship to loss Written by experienced counsellors and psychotherapists the book contains candid and readable discussions of central issues including how to understand and work with anger and guilt attachment patterns and loss historical changes in attitudes to death and bereavement death as a particular form of loss *Gift of Tears* is intended for anyone who finds they have to cope in the course of their daily lives with the grief of others It will prove invaluable to counsellors therapists mental health professionals and all those helping the bereaved www.bereavementarena.com

how ethics underpin their therapeutic work An Ethical Framework for Complementary and Alternative Therapists encourages critical and reflective practice suggests practical problems to common problems includes illustrative scenarios of ethical dilemmas faced by therapists and summarises key points This timely book offers a comprehensive guide to this important area Its challenging conclusions are as relevant to experienced practitioners as to students and newly qualified therapists This book will also interest policy makers and professional bodies interested in strengthening and enhancing CAM s potential

Hate and Love in Psychoanalytical Institutions Jurgen Reeder, 2020-10-13 In Hate and Love in Psychoanalytic Institutions Jurgen Reeder investigates the professional superego of the psychoanalyst This superego designates a prescriptive and prohibiting role that the individual must play within the parameters of a certain occupational sphere The prescriptive aspect works like a professional ideal and in this respect the superego can be said to sustain a professional ethos or spirit commanding what the professional should know and what his or her relations to clients and colleagues should resemble It helps to bind the members of the analytical community together The prohibiting aspect installs a vigilant inner eye It offers necessary protection against detrimental aberrations but it also evokes fantasies of critical or condemning colleagues who might have insight into what transpires within the walls of the analyst s own private practice

leading to a reluctance to communicate openly about the analytical experience In this sense the professional superego contributes to the paranoization of collegial communication a circumstance that has a hampering effect on spontaneity and creativity in both clinical and theoretical work Jurgen Reeder s groundbreaking research uncovering the dynamics of the professional superego in psychology psychotherapy and psychoanalysis can be applied to other professions as well including social work medicine education law and the ministry
