Superwoman Jacqueline Cochran:

Superwoman Jacqueline Cochran Billie Pittman Ayers, Beth Dees, 2001-10 *The Women with Silver Wings* Katherine Sharp Landdeck, 2021-03-30 With the fate of the free world hanging in the balance women pilots went aloft to serve their nation A soaring tale in which at long last these daring World War II pilots gain the credit they deserve Liza Mundy New York Times bestselling author of *Code Girls* A powerful story of reinvention community and ingenuity born out of global upheaval Newsday When the Japanese attacked Pearl Harbor in December 1941 Cornelia Fort was already in the air At twenty two Fort had escaped Nashville s debutante scene for a fresh start as a flight instructor in Hawaii She and her student were in the middle of their lesson when the bombs began to fall and they barely made it back to ground that morning Still when the U S Army Air Forces put out a call for women pilots to aid the war effort Fort was one of the first to respond She became one of just over 1 100 women from across the nation to make it through the Army s rigorous selection process and earn her silver wings The brainchild of trailblazing pilots Nancy Love and Jacqueline Cochran the Women Airforce Service Pilots WASP gave women like Fort a chance to serve their country and to prove that women aviators were just as skilled as men While not authorized to serve in combat the WASP helped train male pilots for service abroad and ferried bombers and pursuits across the country Thirty eight WASP would not survive the war But even taking into account these tragic losses Love and Cochran s social experiment seemed to be a resounding success until with the tides of war turning Congress clipped the women s wings The program was disbanded the women sent home But the bonds they d forged never failed and over the next few decades they came together to fight for recognition as the military veterans they were and for their place in history

Spitfires Becky Aikman, 2025-05-06 Lively and entertaining Those fearlessly determined female pilots are the professional forebears of the women who would slowly break down barriers in the U S military in the decades that followed And what forebears those women were The Washington Post A soaring narrative Keith O Brien New York Times bestselling author of *Fly Girls* The heart pounding true story of the daring American women who piloted the most dangerous aircraft of World War II through the treacherous skies of Britain They were crop dusters and debutantes college girls and performers in flying circuses all of them trained as pilots Because they were women they were denied the opportunity to fly for their country when the United States entered the Second World War But Great Britain desperately fighting for survival would let anyone even Americans even women transport warplanes Thus twenty five daring young aviators bolted for England in 1942 becoming the first American women to command military aircraft In a faraway land these spitfires lived like women decades ahead of their time Risking their lives in one of the deadliest jobs of the war they ferried new barely tested fighters and bombers to air bases and returned shot up wrecks for repair never knowing what might go wrong until they were high in the sky Many ferry pilots died in crashes or made spectacular saves It was exciting often terrifying work The pilots broke new ground off duty as well shocking their hosts with thoroughly modern behavior With cinematic sweep Becky Aikman follows

the stories of nine of the women who served drawing on unpublished diaries letters and records along with her own interviews to bring these forgotten heroines fully to life Spitfires is a vivid richly detailed account of war ambition and a group of remarkable women whose lives were as unconventional as their dreams

Fighting for Space Amy Shira Teitel, 2020-02-18 Spaceflight historian Amy Shira Teitel tells the riveting story of the female pilots who each dreamed of being the first American woman in space When the space age dawned in the late 1950s Jackie Cochran held more propeller and jet flying records than any pilot of the twentieth century man or woman She had led the Women s Auxiliary Service Pilots during the Second World War was the first woman to break the sound barrier ran her own luxury cosmetics company and counted multiple presidents among her personal friends She was more qualified than any woman in the world to make the leap from atmosphere to orbit Yet it was Jerrie Cobb twenty five years Jackie s junior and a record holding pilot in her own right who finagled her way into taking the same medical tests as the Mercury astronauts The prospect of flying in space quickly became her obsession While the American and international media spun the shocking story of a woman astronaut program Jackie and Jerrie struggled to gain control of the narrative each hoping to turn the rumored program into their own ideal reality an issue that ultimately went all the way to Congress This dual biography of audacious trailblazers Jackie Cochran and Jerrie Cobb presents these fascinating and fearless women in all their glory and grit using their stories as guides through the shifting social political and technical landscape of the time
