Volume 33 contains articles on Legal Aspects of Emergency Regimes      *Exploring Consumers' Willingness To Adopt Climate-Friendly Diets* Maria Isabel Miguel, Jana Majerova, 2024-08-28 It is widely known that food markets have a high environmental impact which needs to be minimized in order to help mitigate climate change Governments and international institutions can help improve the sustainability of global food production however consumers decisions have an important role in influencing food market stakeholders choices towards sustainable food sources and low emission practices Understanding consumers awareness of the importance of choosing sustainable diets and their capability to adapt their individual decision making is pivotal to stimulating or improving consumers willingness to move towards choosing climate friendly food and avoiding food waste There are many factors that influence people s food choices from cultural and ethical acceptability visual attractiveness taste agreeability and economic affordability which change depending on the geographical areas and targeted group of people Thus to orient consumers food choices many challenges need to be considered including making consumers aware of organic food health and environmental benefits nutritional high protein alternatives to meat and offering affordable solutions The aim of this Research Topic is to collect different perspectives on consumers food choices in relation to the environmental sustainability issue This would support the decision makers and food systems stakeholders to move towards sustainable food production Thus this collection wishes to highlight the consumers point of view on the trade off between personal habits and food preferences and climate friendly choices in geographical areas including the awareness of the impact that the diet choice may have on the environment This collection welcomes submissions on the following themes but are not limited to Consumers perception of the diet s impact on climate change issue Consumers food choice drivers Cultural acceptability of alternative protein sources Consumers willingness to purchase organic food Trade off availability between sustainable and affordable food choice      **United Nations Peacekeeping and the Principle of Non-Intervention** Jennifer Giblin, 2024-03-26 Using a unique application of Third World Approaches to International Law TWAIL this book provides a critical interdisciplinary examination of the contemporary practice of UN peacekeeping Is peacekeeping intervention Since its conception in the mid 1950s peacekeeping has significantly evolved from traditional lightly armed passive operations to robust multi dimensional stabilisation peacekeeping operations This raises questions as to whether this is simply a natural evolution of peacekeeping or whether it marks an expansion of the concept beyond its boundaries pushing it into the realm of peace enforcement or intervention In response this book examines the frameworks which govern UN peacekeeping and seeks to understand the relationship between peacekeeping and the principle of non intervention Providing practical examples from the United Nations operations in the Democratic Republic of the Congo and drawing upon interviews with key international actors including UN personnel the book explores the boundaries of peacekeeping contending that peacekeeping at times becomes a form of intervention This the book argues is detrimental both to the concept of peacekeeping and to the host state and it concludes by offering a series of recommendations to re

affirm peacekeeping's boundaries and amplify the effectiveness of contemporary peacekeeping This book will be of interest to scholars and students in international law international relations politics history and criminology      **Foreign Assistance and Related Programs Appropriations for Fiscal Year 1987: Agency for International Development** United States.
