Also explored are ways that teacher scaffolding can help students who have difficulties with particular aspects or types of texts. The book considers approaches to adapting the design and selection of texts to reinforce reading skills and provide well-paced challenges for K-6 students at a variety of ability levels.

Strategies to Support Struggling Adolescent Readers, Grades 6-12 Katherine S. McKnight, Lisa Hollihan Allen, 2018-03-02. When students are in elementary school, a teacher who has expertise in teaching the fundamentals of reading instructs them. At the middle and high school level, that stops, and the timing could not be worse. The literacy demands increase exponentially yet typically schools do not teach adolescents how to successfully read the increasingly difficult materials they encounter throughout their day. As the rigor increases in their classes, student coping skills become less effective. Consequently, the achievement gap becomes wider and more difficult to close during the adolescent years. When it comes time to prescribe an intervention, middle and high school teachers are hitting a wall. Decoding and comprehension materials are often presented at an elementary level. The students feel bad enough that they struggle with reading; assigned busy work increases the stigma. This book addresses the need for 6-12 teachers to have appropriate literacy intervention materials to use with struggling adolescent readers. This book will also help teachers learn how to support any adolescent reader struggling or not when they encounter challenging text. The book features two strands: decoding and comprehension. Each strand contains lessons, materials, a difficulty dial, tips for implementation, and student samples.

After Early Intervention, Then What? Teaching Struggling Readers in Grades 3 and Beyond Rachel L. McCormack, Jeanne R. Paratore/IRA, Jeanne R. Paratore, 2005-01-18. For courses in Elementary Reading Methods, Literacy in the Elementary School, and Literacy Tutoring. Even with effective early interventions, many students continue to need expert and intensive reading instruction well beyond the primary grade years. Now intermediate and middle school educators and pre-service teachers have a resource to help them develop instructional strategies for these students. The contributors to this volume draw from research and classroom practice as they share strategies that work for readers who continue to struggle in grades 3-8.

Readers will learn how to address the needs of children in a range of instructional settings and learning contexts and gain a solid understanding of the current state of knowledge on struggling readers and the multiple pathways they can take to help them succeed
