

SUR LES TRACES DE BEN LADEN

Plus de deux années après les attentats du 11 septembre 2001, Oussama Ben Laden est tantôt donné pour mort, tantôt pour blessé. Le chef d'Al-Qaida revient cycliquement sur la scène médiatique pour montrer que lui, son état-major et son organisation n'ont pas été sérieusement affectés par la lutte mondiale contre le terrorisme. Comment expliquer les échecs de la lutte antiterroriste lancée par les Américains, qui ne sont pas seulement dûs à la méconnaissance du phénomène islamiste ?

Cette enquête menée sur le terrain au Pakistan et en Afghanistan fait ressortir une série d'indices et de témoignages qui montrent que les stratèges de la Maison Blanche ont sciemment « retardé » la neutralisation d'Oussama Ben Laden. Celui-ci se cache depuis plusieurs mois au Waziristân, une zone tribale encerclée discrètement pour limiter les déplacements du chef d'Al-Qaida. Pourquoi ?

D'abord, la manipulation du danger islamiste est une sorte de culture chez l'administration américaine. Ensuite, parce qu'il fallait absolument renverser le régime irakien avant de neutraliser le chef d'Al-Qaida. Enfin, la décision de « reporter » l'arrestation de Ben Laden est due à des calculs électoralistes. En effet, le 2 novembre 2004 se dérouleront les présidentielles américaines : quoi de mieux que l'arrestation de Ben Laden, quelques semaines auparavant, pour assurer la réélection de Bush ?

Sur Les Traces De Ben Laden:

The Secret History of Al Qaeda Abdel-Bari Atwan, 2012-08-01 Over the last ten years journalist and al Qaeda expert Abdel Bari Atwan has cultivated uniquely well placed sources and amassed a wealth of information about al Qaeda's origins masterminds and plans for the future Atwan reveals how al Qaeda's radical departure from the classic terrorist guerrilla blueprint has enabled it to outpace less adaptable efforts to neutralize it The fanaticism of its fighters and their willingness to kill and be killed are matched by the leadership's opportunistic recruitment strategies and sophisticated understanding of psychology media and new technology including the use of the internet for training support and communications Atwan shows that far from committing acts of violence randomly and indiscriminately al Qaeda attacks targets according to a decisive design underwritten by unwavering patience He also argues that events in Iraq and Saudi Arabia are watershed moments in the group's evolution that are making it more dangerous by the day as it refines and appropriates the concept of jihad and makes the suicide bomber a permanent feature of a global holy war While Osama bin Laden and Ayman al Zawahiri remain al Qaeda's figureheads Atwan identifies a new kind of leader made possible by its horizontal chain of command epitomized by the brutal Abu Musab al Zarqawi in Iraq and the bombers of London Madrid Amman Bali and elsewhere

The Bin Ladens Steve Coll, 2008 The Bin Ladens rose from poverty to privilege they loyally served the Saudi royal family for generations and then one of their number changed history on September 11 2001 Journalist Steve Coll tells the story of the rise of the Bin Laden family and of the wildly diverse lifestyles of the generation to which Osama bin Laden belongs and against whom he rebelled Starting with the family's escape from famine at the beginning of the twentieth century through its jet set era in America after the 1970s oil boom and finally to the family's attempts to recover from September 11 this book unearths extensive new material about the family and its relationship with the United States and provides a richly revealing and emblematic narrative of our globally interconnected times From publisher description , **Beyond Timbuktu**

Ousmane Oumar Kane, 2016-06-07 Timbuktu is famous as a center of learning from Islam's Golden Age Yet it was one among many scholarly centers to exist in precolonial West Africa Ousmane Kane charts the rise of Muslim learning in West Africa from the beginning of Islam to the present day and corrects lingering misconceptions about Africa's Muslim heritage and its influence Patterns in Border Security Christian Leuprecht, Todd Hataley, Emmanuel Brunet-Jailly, 2022-12-12 How do security communities transform into security regimes This book compares the construction of cross border security regimes across five regions of the world to illustrate how trust emerges from the day to day relations of coordination cooperation or collaboration Patterns in Border Security Regional Comparisons studies the way borderland communities develop implement and align border policy to enhance their sense of security Borders have been evolving rapidly in direct response to the multifaceted challenges brought on by globalization which has had a nuanced impact on the way borders are governed and border security is managed Taking a methodical comparative regional approach this book identifies and contrasts

determinants of nascent ascendant and mature border security regimes which the book documents in seven regional case studies from across the globe The findings identify conditions that give rise to cross border and trans governmental coordination cooperation or collaboration Specifically pluralistic forms of communication and interactions sometimes far from the actual borderline emerge as key determinants of friendly and trustful relations among both contiguous and non contiguous regions This is a significant innovation in the study of borders in particular in the way borders mediate security For six decades international security studies had posited culture as the bedrock of security communities By contrast the book identifies conditions a method and a model for adequate and effective cross border relations but whose outcome is not contingent on culture The chapters in this book were originally published as a special issue of Commonwealth and Comparative Politics with a Foreword by the Secretary General of the World Customs Organization The Open Access chapters of this book available at <http://www.tandfebooks.com/doi/view/10.4324/9781003216926> have been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Jihadists of North Africa and the Sahel Alexander Thurston, 2020-10-29 Jihadist movements have claimed that they are merely vehicles for the application of God's word distancing themselves from politics which they call dirty and manmade Yet on closer examination jihadist movements are immersed in politics negotiating political relationships not just with the forces surrounding them but also within their own ranks Drawing on case studies from North Africa and the Sahel including Algeria Libya Mali Niger Burkina Faso and Mauritania this study examines jihadist movements from the inside uncovering their activities and internal struggles over the past three decades Highlighting the calculations that jihadist field commanders and clerics make Alexander Thurston shows how leaders improvise both politically and religiously as they adjust to fast moving conflicts Featuring critical analysis of Arabic language jihadist statements this book offers unique insights into the inner workings of jihadist organisations and sheds new light on the phenomenon of mass based jihadist movements and proto states

Jihadist Insurgent Movements Paul B. Rich, Richard Burchill, 2017-09-01 This path breaking collection of papers examines the phenomenon of jihadist insurgent movements in the Middle East and North East and West Africa It argues that military and strategic analysts have paid insufficient attention to the phenomenon of jihadism in insurgent movements partly due to a failure to take the role of religion sufficiently seriously in the ideological mobilisation of recruits by guerrilla movements stretching back to the era of national liberation after World War Two Several essays in the collection examine Al Qaeda and ISIL as military as well as political movements while others assess Boko Haram in West Africa Al Shabaab in Somalia and jihadist movements in Libya Additionally some authors discuss the recruitment of foreign fighters and the longer term terrorist threat posed by the existence of jihadist movements to security and ethnic relations in Europe Overall this volume fills an important niche between studies that look at Islamic fundamentalism and global jihad at the international level and micro studies that look at movements locally It poses the question whether jihadist insurgencies are serious revolutionary

threats to global political stability or whether like Soviet Russia after its initial revolutionary phase of the 1920s they can be ultimately contained by the global political order The volume sees these movements as continuing to evolve dynamically over the next few years suggesting that even if ISIL is defeated the movement that brought it into being will still exist and very probably morph into new movements Jihadist Insurgent Movements was originally published as a special issue of Small Wars Insurgencies West African Studies Conflict Networks in North and West Africa OECD,Sahel and West Africa

un des plus pertinents spécialistes de la géopolitique anglo-américaine du p-trole et de ses implications financières William Engdahl nous offre ici une analyse essentielle pour comprendre le lien entre l'histoire du p-trole et les guerres actuelles de nouvelle génération qui ont vu l'émergence du salafisme djihadiste au Proche Orient mais également dans le monde entier avec les attentats terroristes. Les vieilles logiques impérialistes britanniques de contrôle des matières premières stratégiques ont donné lieu à l'utilisation en sous-main de mouvements idéologiques extrêmes pouvant recourir au terrorisme. Actualisant des logiques similaires les Etats Unis ont pris le relais de l'Angleterre instrumentant l'extrémisme wahhabite et d'autres sectes comme la confrérie des Frères musulmans ou le mouvement G-len des pays comme l'Arabie saoudite le Qatar et la Turquie ont ainsi tenté de pousser et encourager partout le chaos terroriste. **2006 : Ils ont fait couler le sang du monde** Michel Behar, 2004

Silence, on ment Gilles Martin-Chauffier, 2003-09-03. Que se passe-t-il quand l'animateur vedette de Canal Première un bourgeois parisien à l'humour cinglant invite un beur star du foot dans son mission. En apparence tout oppose Richard Tessler dont les livres de chevet sont Machiavel et Baltasar Gracian qui manie la langue comme une arme de combat et l'ailier droit de l'équipe de France Hassan Elgann au physique de pharaon maci le crâne rasé le verbe rare révèle son clan familial de Saint Xavier dans le 93. En apparence seulement. Il est au moins un détail que ces deux fauves ont en commun Delphine blonde aux jambes affolantes aussi cynique que Tessler dont elle ne fera qu'une bouchée. En la raccompagnant chez elle Richard voit ce qu'il n'aurait pas dû voir une meute dans la cité où un enseignant se fait molester puis tombe dans le coma. La police cherche les responsables et surtout leur commanditaire Richard sera-t-il impliqué. Alors la bluette entre happy few des plateaux télévisés la série noire. Chacun verra son passé resurgir. On découvrira au passage que tout le monde ment. Et se ment. Tessler a effacé toutes traces de ses origines le clan Elgann flirte avec le banditisme. Delphine est une manipulatrice hors pair. Mais au juste qui manipule qui. Avec le brio et la causticité qu'on lui connaît Gilles Martin-Chauffier ne décrit plus seulement les coulisses du Tout Paris mondain il aborde ici les problèmes de notre société contemporaine en fustigeant les consciences morales qui prennent les banlieues pour le théâtre de leurs ambitions il pose les questions gênantes. Comment s'intégrer la société française. Et que vous arrive-t-il quand on s'affranchit des règles. *Guide de Routard San Francisco 2020/21* Collectif, 2020-03-18.
