Lockerbie, 1977-01-01 *PROSTATE CANCER - ME, my DOCTOR and HOPE!* Stephen Lamb, 2015-06-01 Steve had never written a book before and never thought he would After unexpectedly enduring a prostate cancer experience and the subsequent outcome he felt inspired to put pen to paper His inspiration was fueled in the hope that the book raises awareness and ultimately makes a difference for other men and their families who have or are facing a prostate cancer journey Hopefully it sends an important message in relation to the diagnosis and shows them that there are also amazing alternatives in treatment available to them He is a firm believer that things happen for a reason If he hadn't contracted prostate cancer his book would not be a reality today After a lot of soul searching he chose not to follow the conventional mainstream path of treatment the norm He has his wife Karen to thank for that Steve's book is very different to the normal cancer books on the shelf in as much as it is a unique marriage of the human story a cutting edge scientific nutritional approach to diagnosis and treatment and a reference book at the same time **An account of the life, writings, and character of Dr. J. Medicine and Hope: A Natural Theology of Human Caretaking Richard Sherlock, 2024-09-12 This book expands in a modest way the discussion of hope and does so by focusing on a field where it is at the core of care taking medicine The three great religious virtues of medieval theology were faith hope and love An enormous literature exists about faith and love but much less exists about hope Doctors often know what they want to do for a patient but do not know whether they are able to have a good result If they fail will the result be worse They must hope they can succeed In other cases they know what they can do but they are uncertain whether they should If they do not undertake action will the patient try to do it themselves with a much worse result Questions such as these raise the issue of the importance of hope in medicine This book builds on an insight from the first modern textbook of medical ethics Thomas Percival s 1803 classic Medical Ethics There Percival says that the doctor is a minister of hope to the sick This book analyses this concept which is central to the practice of medicine

Guy's Hospital Gazette ,1917 *Hope and Courage* Lisa (Cox) Kibler,2021-05-07 It s a subject nobody wants to talk about until it attacks them Unless you have been through it yourself you cannot relate or fully understand what that person is going through It s time to bring this topic out into the open and talk about it and realize that no one can get through it without support family friends and faith My journey started in 2013 with my first surgery to remove lymph nodes The results were inconclusive Five years went by before my lymph nodes would again decide to freak out and require another surgery This time we got answers The smell of spring was in the air and the day was sunny and warm I was trying to finish up the current school year with my kiddos when everything changed My husband and I had big plans for the summer We were looking forward to kayaking camping fishing and I was looking forward to playing softball Then came the doctor s appointment and when the doctor said cancer everything came to a screeching halt in more ways than one Cancer is devastating but I chose to put on my armor and fight this beast head on I did not realize just how difficult this battle was going to be and how much I would be tested physically spiritually and mentally This is the hardest thing I have ever had to face but with God family and friends I was able to defeat the beast for now Was it easy No Do I want to go through it again No But after talking with many cancer survivors I learned that anything is possible through prayer and perseverance I hope that sharing my story may help someone else get through their journey with hope and courage
