Health Systems Recovery in the Context of COVID-19 and Protracted Conflict Zsuzsanna Jakab,Sohel Saikat,Duncan Selbie,Saqif Mustafa,Yu Zhang,Geraldine McDarby,Mila Petrova,Redda Seifeldin,2023-07-10 The COVID 19 pandemic has caused unprecedented disruption worldwide highlighting once again the interdependency of health and socioeconomic development and the global lack of health systems resilience Two years into the pandemic most countries report sustained disruptions across service delivery platforms and health areas with a profound impact on health outcomes The impact of these disruptions is magnified within marginalized communities and in countries experiencing protracted conflict There is an urgent need to focus on recovery through investment in the essential public health functions EPHFs and the foundations of health systems with a focus on primary health care and whole of government and society engagement The aim of this Research Topic is to gather transfer and promote operationalization of key experiences from COVID 19 to inform global and country level recovery that better promote health guide policy direction towards building health systems resilience and thereby ensure economic and social prosperity Experience with COVID 19 has demonstrated that traditional approaches to health system strengthening have failed to achieve the complementary goals of Universal Health Coverage UHC and health security with the divide between

the most vulnerable and well off only widening Much of what had been learned from previous experiences such as Ebola in West Africa has not been widely applied This has left health and economic systems vulnerable to 21 st century public health challenges ranging from conflict and natural disasters to aging demographics and rising rates of non communicable and communicable diseases and antimicrobial resistance These challenges require intentional focus and investment as well as whole of government and society engagement with health to build health system resilience Greater action is needed to prevent the devastating effects of war and conflict on the health of the most vulnerable This Research Topic will convene the knowledge and practices of leaders in public health health systems and humanitarian and development sectors This is to ensure lessons from COVID 19 inform the recovery agenda and promote sustainable health and socioeconomic recovery for all Lest we forget and find ourselves again unprepared and vulnerable in the face of an even greater threat Disease Control Priorities in Developing Countries Dean T. Jamison, Joel G. Breman, Anthony R. Measham, George Alleyne, Mariam Claeson, David B. Evans, Prabhat Jha, Anne Mills, Philip Musgrove, 2006-04-02 Based on careful analysis of burden of disease and the costs of interventions this second edition of Disease Control Priorities in Developing Countries 2nd edition highlights achievable priorities measures progress toward providing efficient equitable care promotes cost effective interventions to targeted populations and encourages integrated efforts to optimize health Nearly 500 experts scientists epidemiologists health economists academicians and public health practitioners from around the world contributed to the data sources and methodologies and identified challenges and priorities resulting in this integrated comprehensive reference volume on the state of health in developing countries Modern Hospital Year Book ,1925 **District of Columbia Appropriations for 1963, Hearings Before ... 87-2, on H.R. 12276** United States.
