The German People And The Reformation

Christopher Ocker

The German People And The Reformation:

The German People and the Reformation R. Po-chia Hsia, 1988 In the past scholars tended to treat the Reformation as a chapter in the history of ideas emphasizing the thought of the major reformers and the changes in Christian doctrine Today however more and more historians are asking how the revolution in theology affected the lives of ordinary men and women Aware that religious faith is part of the larger cultural and material universe of early modern Europeans these scholars have exploited hitherto neglected sources in an attempt to reconstruct the people's Reformation The twelve essays commissioned for this collection represent the broad spectrum of recent scholarship in the social history of the German Reformation Historians from various countries offer a panorama of different methodological approaches and thematic concerns Some of the essays represent original research others address current historiographical debates still others offer concise syntheses of recently published monographs including seminal works in German The essays are centered around four themes cities and the Reformation the transmitting of the Reformation in print ritual and song women and the family and lastly the impact of the Reformation on education and other aspects of lay culture Back cover

Jesus and the Rise of Nationalism Halvor Moxnes, 2011-10-30 The great German theologian Albert Schweitzer famously drew a line under nineteenth century historical Jesus research by showing that at the bottom of the well lay not the face of Joseph's son but rather the features of all the New Testament scholars who had tried to reveal his elusive essence In his thoughtful and provocative new book Halvor Moxnes takes Schweitzer's observation much further the doomed quest for the historical Jesus was determined not only by the different personalities of the seekers who undertook it but also by the social cultural and political agendas of the countries from which their presentations emerged Thus Friedrich Schleiermacher's Jesus was a teacher corresponding with the role German teachers played in Germany's movement for democratic socialism Ernst Renan's Jesus was by contrast an attempt to represent the positive Orient as a precursor to the civilized self of his own French society Scottish theologian G A Smith demonstrated in his manly portrayal of Jesus a distinctively British liberalism and Victorian moralism Moxnes argues that one cannot understand any life of Jesus apart from nationalism and national identity and that what is needed in modern biblical studies is an awareness of all the presuppositions that underlie presentations of Jesus whether in terms of power gender sex and class Only then he says can we start to look at Jesus in a way that does him justice

The Oxford Handbook of the Protestant Reformations Ulinka Rublack, 2017 This Handbook takes a broad overview of the Protestant Reformations seeing them as movements which stretched far beyond their European beginnings Written by a team of international scholars of history and theology the contributions offer up to date perspectives on Reformation ideas and the lasting historical impact of Protestantism

A Quest for the Historical Christ Anthony Giambrone, 2022-02-18 A Quest for the Historical Christ brings together a collection of interrelated essays on the historical Jesus and primitive Christology Sensitive to the diverse but traditionally Protestant assumptions and perspectives of the Quest as well as to the widely lamented disconnect between

New Testament exegesis and classical dogmatic theology an alternative approach is proposed in these pages Ecumenical and conciliar reference points along with non confessional historical methods e g archeology shape the basic project which nevertheless assumes some distinctive and important Catholic contours The book is divided into three sections Historical Foundations Theological Perspectives and Jesus and the Scriptures While the individual chapters represent independent probes the cumulative argument and arc of the study drives in clear and concerted directions After a first approach to the Gospel data attentive at once to historiographical and historical questions a series of interventions reorienting the present scholarly discussion are suggested These various foundational essays lead finally to a sustained meditation on the mind of Christ considered as a unique reader of the Scriptures a meditation having its proper reflex and reflection in the way Christians themselves as readers of the Gospels participate in the Lord s own encounter with the living Word
