The Glamorgan Village:

The Glamorgan Village Book, 1993 Describes Glamorgan s villages as they are and the history people and events that have made each one unique Deserted Medieval Villages Maurice Beresford, John G. Hurst, 2025-01-01 Deserted Medieval Villages combines archaeological and historical expertise to produce a comprehensive and detailed analysis of the studies of deserted medieval villages Including an extensive historical and archaeological review of the surge in mid 20th century research J G Hurst s archaeological gazetteer of 290 sites and analysis of Scottish Welsh and Irish sites this book is an in depth reference work Updating Beresford s classic *The Lost Medieval Villages of England* this book refreshes his historical research considers the economic circumstances of desertion and includes detailed maps photographs and tables

Glamorganshire Joseph Henry Wade, 1914 *The Universal British Directory of Trade, Commerce, and Manufacture*, 1790 **The Comprehensive Gazetteer of England and Wales** J. H. F. Brabner, 1894 **Houses of the Welsh Countryside** Peter Smith, 1988 When this book was first published in 1975 it was at once enthusiastically received by scholars and the general public alike and recognized as a classic of its genre It represented a notable publication of the early fruits of the Commission s work on the side of its responsibility for the National Monuments Record for Wales During the years which have since intervened much fresh information has come to light concerning Welsh houses not least because of the intense interest awakened by the original publication This new knowledge has as far as possible been incorporated in the new and revised edition which contains approximately onequarter more material than the first Although it has not been possible to alter the original text a number of additional maps and photographs have been included and a new dust jacket has been designed The Commissioners would wish warmly to congratulate their Secretary Mr Peter Smith those of his colleagues who were associated with him and H M S O on the excellence of this volume It marks another outstanding landmark in the study of vernacular architecture not only in Wales but also in the British Isles and a major achievement on the part of its author Although this second edition of *Houses of the Welsh Countryside* retains in their entirety the text the illustrations and the layout of the volume first published in 1975 it also includes a substantial amount of new information which has come to light since that date Some of this new material takes the form of additional figures inserted where appropriate into the existing illustrative pages Similarly a small number of additional colour plates showing typical houses in characteristic settings has been tipped into the text There are also additions to the original map lists It has not been possible for reasons of cost to bring the maps themselves up to date but as the newly discovered sites nearly always reinforce the distribution patterns first indicated this omission is not crucial The numbers of new discoveries can vary from a mere handful on one list to several hundred on another All other new material is introduced as part of an additional SECTION IV at the back of the volume This section comprises Corrigenda Covering sites which were inadequately or incorrectly described in the first volume involving in one case a complete reappraisal of the original reference Addenda I Describing and illustrating a small

number of newly surveyed houses of especial interest which could not easily be fitted into the illustrations in the main text
Addenda II Analysing the incidence of date inscriptions as evidence for building activity
Addenda III Listing and mapping a number of features of domestic architecture not previously so noted
Addenda IV Listing and mapping various features of ecclesiastical architecture which also occur in houses and which therefore have a bearing on the evolution of domestic architecture

Celtic Places & Placenames John Moss, 2022-09-08 Celtic Places are typified by some several hundred townships and villages whose names still bear the imprint of their earliest Celtic roots but the scope of the book is not restricted to human settlements it is also true of the many mountains and rivers that they named and to several thousand sites of standing stone monuments Celtic high crosses henges hill figures funeral barrows and hillforts which are all included in the book What they all have in common is that they reflect the rich cultural heritage that was implicit in the names of places in the British Isles and Ireland as it existed before the Romans arrived
