Inanna, Lady of Heaven and Earth Henriette Broekema, 2015 Inanna was the great goddess of the Sumerians a people who lived 5000 year ago in the place we know today as Iraq where was created the first urban civilization in human history Inanna the goddess of sexual love and connected with the planet Venus was responsible for the fertility of the land and the later goddesses the Greek Aphrodite and the Roman Venus adopted many aspects of Inanna The kings worshipped Inanna and celebrated with her the Sacred Marriage rite but they also needed her help during the many wars they were waging which gave Inanna the aspects of a warrior goddess As love goddess Inanna had a passionate love life and her great love was the shepherd Dumuzi not a god but a mortal human who wandered about the steppe with his cattle The peasants sang love songs about Inanna and Dumuzi during the many feasts of the successive agricultural seasons believing that their love affair stimulated the fertility of the crops and the fecundity of the livestock But their idyll was not to last for long as Dumuzi was gruesomely murdered The answer to the question of who killed Dumuzi and why is hidden deep in the history of the ancient agrarian communities The Sumerians wrote their texts on clay tablets that once dried could be preserved until our own day and thanks to this miraculous piece of luck we can cognizance of a number of magnificent hymns and myths written about Inanna These archaic texts call up human emotions that find an answering response in the hearts of people today and are still capable of moving us deeply In this book the myths are told against the back ground of Sumerian civilization and various aspects of society from this time are also discussed such as convent life divine kingship and funeral rites One aspect of the funeral rites was The Great Wailing a rite in which Inanna had an important role and which appears to have been performed in many countries around the Mediterranean in the Bronze Age and has left traces even in the Old and New Testament Henriette Broekema s book makes the complex character and history of goddess Inanna accessible to the ordinary reader and based on the texts from that time in twenty six richly illustrated chapters she succeeds in bringing the astonishing world of the goddess Inanna to life

Bron Flaptekst uitgever sinformatie *The Role of the Sumerian Goddess* Faruq Zamani, The Sumerian people once inhabited the region near the Persian Gulf known as Iraq Greeks called this country Mesopotamia which means the land between the rivers as the Euphrates and Tigris rising in Anatolia flowed through

Syria and Iraq before discharging into the Persian Gulf Simurru is the name given to the northern region by the Semitic peoples later like the word Sumerian which was later used for the southern region According to the Sumerians their land was called Kien gi or land of the lordly En after the priest king of Sumer En Sometime after 4000 BC the Sumerians moved to this coastal area but it is unclear from where they came There is no connection between their language and any other language spoken in the region After sailing upriver from the Persian Gulf they migrated inland from the coastal area On the other hand Sumerians came from the northeast of Mesopotamia and traveled down the river to the south Simurru could indicate that the Sumerians once lived in the northern region The Sumerians must have encountered people who had already settled in the Persian Gulf area for a long time when they entered since a few cities had names that did not match Sumerians but were most likely derived from an unknown language Examples include Uruk E nanna and Shuruppak Similarly Buranuna the name of the Euphrates River makes no sense in Sumerian whereas Idigna the name of the Tigris River might be explained as the blue river Farmers had established small settlements along these two great rivers during the fifth millennium BC To irrigate agricultural crops they diverted water from rivers through canals There was little rainfall in this area and the sun burned mercilessly during the summer months so everyone lived entirely off floodwater from the rivers The rivers could be dangerous though as the land was flat and there was always the danger that the river would overflow its banks and change its course inundating new areas and destroying crops and water supplies The great rivers carried silt through the plain forming swamps along the Persian coast Here the inhabitants grew cane for making little reed houses for the gods God Enki was responsible for this domain He brought civilization to the Sumerians and lived underground in a freshwater residence the Abzu located below the earth's surface but above the ocean's saltwater expanse

Stories of the Goddess Marit Clementz, Ingvild Forbord, 2024-05-14 The well known archaeologist Marija Gimbutas found through her excavations and research in Europe from prehistoric times that there have been societies that lived in peace for millennia and where the highest deity was feminine Gimbutas believed women played a central role in the religions and society of what she called ancient Europe In societies where the goddess was the supreme deity life was celebrated not death and men and women were equal People lived in harmony with nature and built their cities on fertile plains The knowledge of a possible peaceful society where the goddess ruled and where the union between man and woman was sacred has made women and men believe that a better world is possible On this background Clementz and Forbord try to find traces of the Great Goddess in symbolism that recurs in myths and fairy tales The book reproduces a selection of these and sheds new light on them with the help of religious historical theory We join the goddess Inanna to the underworld hear the legend of Kuan Yin follow the tracks of the black Madonnas investigate the Grail mysteries look into the Great Goddess of the North and see fairy tales about true love in a new light The interested reader can look forward to many moments of realization in the company of the authors and their interpretations of known and unknown myths and fairy tales all from a female perspective Ingvild Forbord is a teacher with a major in the history of religion Marit Clementz is a teacher and professional storyteller Together they run the Women s Academy which organizes workshops and travels related to the themes in this

combining archaeological and textual evidence the origins of the Sumerian city state *Sumerian Mythology: A Study of
Spiritual and Literary Achievement in the Third Millennium B.C.* Samuel Noah Kramer,1944-01-01 The Sumerians were a non
Semitic non Indo-European people who flourished in southern Babylonia from the beginning of the fourth to the end of the
third millennium B C During this long stretch of time the Sumerians whose racial and linguistic affiliations are still
unclassifiable represented the dominant cultural group of the entire Near East This cultural dominance manifested itself in
three directions It was the Sumerians who developed and probably invented the cuneiform system of writing which was
adopted by nearly all the peoples of the Near East and without which the cultural progress of western Asia would have been
largely impossible The Sumerians developed religious and spiritual concepts together with a remarkably well integrated
pantheon which influenced profoundly all the peoples of the Near East including the Hebrews and the Greeks Moreover by
way of Judaism Christianity and Mohammedanism not a few of these spiritual and religious concepts have permeated the
modern civilized world The Sumerians produced a vast and highly developed literature largely poetic in character consisting
of epics and myths hymns and lamentations proverbs and words of wisdom These compositions are inscribed in cuneiform
script on clay tablets which date largely from approximately 1750 B C a In the course of the past hundred years
approximately five b thousand such literary pieces have been excavated in the mounds of ancient Sumer Of this number over
two thousand more than two thirds of our source material were excavated by the University of Pennsylvania in the mound

covering ancient Nippur in the course of four grueling campaigns lasting from 1889 to 1900 these Nippur tablets and fragments represent therefore the major source for the reconstruction of the Sumerian compositions As literary products these Sumerian compositions rank high among the creations of civilized man They compare not unfavorably with the ancient Greek and Hebrew masterpieces and like them mirror the spiritual and intellectual life of an otherwise little known civilization Their significance for a proper appraisal of the cultural and spiritual development of the Near East can hardly be overestimated The Assyrians and Babylonians took them over almost in toto The Hittites translated them into their own language and no doubt imitated them widely The form and contents of the Hebrew literary creations and to a certain extent even those of the ancient Greeks were profoundly influenced by them As practically the oldest written literature of any significant amount ever uncovered it furnishes new rich and unexpected source material to the archaeologist and anthropologist to the ethnologist and student of folklore to the students of the history of religion and of the history of literature
