Contributions of American Museum - Hayden Planetarium Hayden Planetarium,1970 *Shadows, a Mayan Way of Knowing* Ruben E. Reina,1984 Describes the Spanish conquest of Guatemala looks at the remnants of Mayan culture today and recounts the author s experiences among the modern Maya *Requiem For Modern Politics* William Ophuls,2019-05-20 This long promised sequel to Ophuls s influential and controversial classic *Ecology and the Politics of Scarcity* is an equally provocative critique of the liberal philosophy of government Ophuls contends that the modern political paradigm that is the body of political concepts and beliefs bequeathed to us by the Enlightenment is no longer intellectually tenable or practically viable Our attempt to live individualistically hedonistically and rationally has failed utterly causing a comprehensive crisis that is at once political military economic ecological ethical psychological and spiritual Liberal politics has abandoned virtue rejected community and flouted nature thereby becoming the author of its own demise By exposing the intrinsically contradictory and self destructive character of Hobbesian political systems Ophuls subverts our conventional wisdom at every turn Indeed his impassioned text reads more like a Greek tragedy than a conventional political argument He critiques feminism multiculturalism the welfare state and a host of other liberal shibboleths but Ophuls is not yet another neoconservative The aim of his thesis is far more radical and progressive offering a political vision that entirely transcends the categories of liberal thought His is a Thoreauvian vision of a politics of consciousness rooted in ecology as the moral and intellectual basis for governance in the twenty first century Ophuls holds that a polity based on a renewed erotic connection with nature offers a genuine solution to this crisis of contemporary civilization and that only within such a polity will it be possible to fulfill the worthy liberal goal of individual self development Ophuls s work will interest and challenge a wide spectrum of readers though it will not necessarily be well liked or easily accepted No one will put down this book with his or her settled convictions about American culture intact nor will readers ever again take modern civilization and its survival for granted *The Invisible Pyramid* Loren C. Eiseley,1970 *Audubon* ,1971 **Storm Over Rangelands** Wayne Hage,1994 A project of the Free Enterprise Legal Defense Fund Includes bibliographical references p 247 258 and index *The Future of Eternity* Casey Fredericks,1982 *Progress and Apocalypse* Christopher Lewis,1991 *Dictionary of Literary Biography* ,1982 **Writing Themes about Literature** Edgar V.
