The Irish Labour Party In Transition 1957 81

Michael Laver, Norman Schofield

The Irish Labour Party In Transition 1957 81:

The Irish Labour Party in Transition, 1957-82 Michael Gallagher, 1982 *Ireland, 1912-1985* Joseph Lee, 1989 About the history of Ireland from 1912 to 1985 focusing on political social and revolutionary events **Party Policy and Government Coalitions** Ian Budge, M.J. Laver, 2016-07-27 Coalitions are the commonest kind of democratic government occurring frequently in most countries of western Europe It is usually assumed that political parties came together in a government coalition because they agree already or can reach an agreement on the policy it should pursue This book examines this idea using evidence from party election programmes and government programmes It demonstrates that party policies do influence government programmes but not to the extent they would if policy agreement were the sole basis of coalition

Multiparty Government Michael Laver, Norman Schofield, 1998 The seminal text for understanding European coalition politics **Politics and the Irish Working Class, 1830-1945** Donal Ó Drisceoil, F. Lane, 2005-09-30 This book is the first ever collection of scholarly essays on the history of the Irish working class It provides a comprehensive introduction to the involvement of Irish workers in political life and movements between 1830 and 1945 Fourteen leading Irish and international historians and political scientists trace the politicization of Irish workers during a period of considerable social and political turmoil The contributions include both surveys covering the entire period and case studies that provide new perspectives on crucial historical movements and moments This volume is a milestone in Irish labour and political historiography and an important contribution to the international literature on politics and the working class *Sixties Ireland* Mary E. Daly, 2016-03-24 A radical new perspective revealing the truth behind the making of modern Ireland from economic rebirth to entering the EEC **Labour History Review**, 1982 **Independents in Irish party democracy** Liam Weeks, 2017-05-15 This book examines the phenomenon of the independent politician believed to be extinct in most political systems It is very much alive and well in Ireland and has experienced a considerable resurgence in recent years Independents won a record number of seats in 2016 and had three ministers appointed to cabinet This presence is very unusual from a comparative perspective and there are more independents in the Irish parliament than the combined total in all other industrial democracies The aim of this book is to explain this anomaly how and why independents can endure in a democracy that is one of the oldest surviving in Europe and has historically had one of the most stable party systems Irish Books in Print & Leabhair Gaeilge i GCló, 1984 *Parties and Party Systems in Liberal Democracies* Steven B Wolinetz, 2023-07-14 First published in 1988 *Parties and Party Systems in Liberal Democracies* considers the extent and ways in which Western European and North American parties and party systems changed in the 1970s and 1980s after decades of relative stability It examines changes in the nature and organisation of parties and relates this to changes in electoral behaviour and to wider social and economic change It concentrates on political parties as actors and the ways in which they maintain themselves and respond to the moves and gambits of both established and newer parties and to the increasingly numerous and vociferous

single interest pressure groups One important argument put forward is that many social and economic changes have had a minimal impact because established parties have been able to adapt by redefining issues in their favour and have also been able to rely on residual support and access to patronage This engaging volume will have strong appeal for courses in political science government political behaviour and history

Unveiling the Magic of Words: A Review of "**The Irish Labour Party In Transition 1957 81**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance.
