The Israelis Photographs Of A Day In May:

Connecting the Holocaust and the Nakba Through Photograph-based Storytelling Nawal Musleh-Motut, 2023-05-15 This unprecedented ethnographic study introduces a unique photography based storytelling method that brings together everyday Palestinians and Israelis to begin connecting rather than comparing their distinct yet organically connected histories of suffering and exile resulting from the Holocaust and the Nakba Working with Palestinians and Israelis living in their respective Canadian diasporas who are of the Holocaust and Nakba postmemory generations those who did not experience these traumas but are nonetheless haunted by them this study demonstrates that storytelling and photography enable the occasions and conditions of possibility necessary for willing the impossible That is by narrating and then exchanging their post memories of the Holocaust and or the Nakba through associated vernacular photographs project participants were able to connect rather than compare their histories of suffering and exile take moral ethical and political responsibility for one another and imagine new forms of cohabitation grounded in justice and equitable rights for all The Israelis Amos Elon, 1985 **The International Photojournalism Industry** Jonathan Ilan, 2018-07-17 How are events turned into news pictures that define them for the audience How do events become commodified into pictures that both capture them and reiterate the values of the agencies that sell them This book looks at every stage of the production of news photographs as they move to and from the ground and are sold around the world Based on extensive fieldwork at a leading international news agency that includes participant observation with photographers in the field at the agency's local and global picture desks in Israel Singapore and the UK in depth interviews with pictures professionals and observations and in depth interviews at The Guardian's picture desk in London the findings in this book point to a wide cultural production infrastructure hidden from and yet also nurtured and thus very much determined by the consumer's eye Israel Wachtel, 2008-08-01 One Of The Most Sacred Yet Volatile Countries In The World Is Israel Its History Helps The Reader To Understand The Current Crisis It Faces **Six-Day War 1967** Shlomo Aloni, 2019-06-27 On one day in June the balance of air power in the Middle East was turned upside down by perhaps the most ruthlessly effective air superiority campaign in history Operation Moked or Focus In 1967 the Israeli Air Force was outnumbered more than two to one by the jets of hostile Egypt Syria Jordan and Iraq Operation Focus was Israel's ingenious strike plan to overturn the balance At 0745hrs on June 6 Israeli jets hit Egypt's airfields simultaneously first bombing runways and then strafing aircraft Another 20 follow up missions were already in the air initially scheduled to hit every five minutes This new history of Operation Focus explains how the concept for Focus was devised and meticulously planned the astonishing rate of serviceability and turnaround speed it required from ground crews and how the relentless tempo of strikes shattered one air force after another It is the story of how Israel's victory in the Six Day War began with a single shocking day **100 Days in Photographs** Nicholas Yapp, 2007 One hundred days have been identified by Getty and National Geographic to represent defining moments of the past 150

years These moments are crystallised in images that leap from the page revealing joy anger despair and triumph An insightful text by photography historian Nick Yapp supports these images which are accompanied by journals excerpts and on site notes that offer the backstory of the image and how it was captured Major events that have shaped our era captured in the book include from the Getty historic archive the 1848 9 revolution and riots in Europe President Lincoln s assassination in 1865 the construction of the Eiffel Tower in 1889 the Potemkin Mutiny 1905 that launched the Russian Revolution the Easter Rising in Dublin in 1916 the Wall Street crash of 1929 Kristallnacht in Germany in 1938 the British leaving India in 1947 through to the dawn of the new millennium in 2000 The National Geographic archives are used to illustrate cultural geography the changes in landscape contemporary conflicts Native America and the civil rights movement among others including the 1906 San Francisco earthquake Scott and Amundsen reaching the South Pole in 1911 the Lascaux cave paintings discovered in 1940 the first heart transplant in 1967 the Chernobyl disaster of 1986 the cloning of sheep in 1997 the Twin Towers attack of 2001 and the global warming debate of 2007 The wonder of this book is in illustrating how an entire event or age can be captured in a single image whether it be of a peasant s tears two heads of state sharing a secret or the triumph of an Olympic champion Politics war crime exploration fashion and fads all make up these one hundred days From the California Gold Rush of 1849 to the finished structure of the Three Gorges Dam in 2006
