Discriminatory Clubs Christina L. Davis, 2023-07-18 The discriminatory logic at the heart of multilateralism Member selection is one of the defining elements of social organization imposing categories on who we are and what we do Discriminatory Clubs shows how international organizations are like social clubs ones in which institutional rules and informal practices enable states to favor friends while excluding rivals Where race or socioeconomic status may be a basis for discrimination by social clubs geopolitical alignment determines who gets into the room to make the

rules of global governance Christina Davis brings together a wealth of data on membership provisions for more than three hundred organizations to reveal the prevalence of club style selection on the world stage States join organizations to deepen their association with a particular group of states most often their allies and for the gains from policy coordination Even organizations that claim to be universal to target narrow issues or to cover geographic regions use club style admission criteria Davis demonstrates that when it comes to the most important decision of cooperation who belongs to the club and who doesn't geopolitical alignment can matter more than the merits or policies of potential members With illuminating case studies ranging from nineteenth century Japan to contemporary Palestine and Taiwan Discriminatory Clubs sheds light on how for global and regional organizations such as the WTO and the EU alliance ties and shared foreign policy positions form the basis of cooperation

China and Japan in the Russian Imagination, 1685-1922 Susanna Soojung Lim, 2013-03-05 Throughout the centuries as Russia strove to build itself into an imperial power equal to those in the West China and Japan came to occupy a special place in Russians view of the orient Never colonised by Russia or the West China and Japan were linked not only to the greatest of Russian imperial fantasies but also conversely to a deep sense of insecurity regarding Russia's place in the world a sense of insecurity which deepened as China and Japan began to modernise in the later nineteenth century Drawing on a wide range of works by Russian writers and thinkers Lim sets out how Russian perceptions of China and Japan were formed from Muscovy's first contacts with China in the late seventeenth century through to the aftermath of Russia's defeat by Japan in the early twentieth century

The A to Z of the Russo-Japanese War Rotem Kowner, 2009-08-20 Every war leaves an imprint in history but few have had such a pervasive impact in so many respects as the Russo Japanese War of 1904-1905 Politically it fatally weakened the Russian Empire while allowing Japan to follow more dangerous paths Diplomatically it shook the power balance in Europe and reshaped it in the form of two coalitions leading to World War I With regard to the art of warfare it emphasized the use of trench warfare and machine guns on land and the deployment of battleships and the use of torpedoes at sea Yet despite its importance at the time it has become very much a forgotten war The A to Z of the Russo Japanese War provides considerable breadth and depth of coverage based on Japanese Russian and Western sources The breadth is accomplished through a wide ranging introduction a detailed chronology and an extensive bibliography The depth comes in the hundreds of entries on military and political leaders major battles and lesser encounters tactics and strategy as well as the weaponry and of course the causes and consequences The result is the first major reference work on the Russo Japanese War in English and the largest in any language
