The Jewish State The Struggle For Israel's Soul :

The Jewish State Yoram Hazony, 2009-04-30 In what may be the most controversial book on Zionism and Israel published in the last twenty years Yoram Hazony graphically portrays the cultural and political revolt against Israel's status as the Jewish state Examining ideological trends in academia literature media law the armed forces and the foreign policy establishment Hazony contends that Israelis are preparing themselves for the final break with the Jewish past and the Jewish future In a dramatic new reading of Israeli history Hazony uncovers the story of how Martin Buber Gershom Scholem Hannah Arendt and other German Jewish intellectuals bitterly fought against the establishment of Israel and later used the Hebrew University as a base for deposing David Ben Gurion and discrediting Labor Zionism **The Jewish State** is a must read for anyone concerned with Israel's present and future **The Jews, Nationalism, and the Universalist Ideal** J.

David, 2009-03-02 The worst difficulties from which we suffer do not come from without They come from within They do not come from the cottages of the wage earners They come from a peculiar type of brainy people always found in our country who if they add something to its culture take much from its strength Our difficulties come from the mood of unwarrantable self abasement into which we have been cast by a powerful section of our own intellectuals They come from the acceptance of defeatist doctrines by a large proportion of our politicians But what have they to offer but a vague internationalism a squalid materialism and the promise of impossible Utopias Winston Churchill England 24 April 1933 Royal Society of St George London

JNUI Joshua David, 2022-09-20 **The Jews Nationalism and the Universalist Ideal** examines the rise of contemporary globalism as well as its historical predecessors from the past as parts of a common historical ideological whole which seeks to replace ethnic nationalism with internationalism A mission which is termed universalism in this book Both ancient and contemporary this is the back story of an ideology which has had a monumental impact upon the development of human civilization The book tells the history of the Jewish people intertwined with memoirs from the author's life and seamlessly weaves in eye opening historical references It's a thought provoking look into the struggles of nationalism and universalism It's a history lesson with a bold message Do you find yourself baffled frustrated or shocked by current events in the world today Then this book is for you **The Classical Liberal Case for Israel** Walter E. Block, Alan G.

Futerman, 2021-11-02 This book offers a unique perspective on the State of Israel based on classical liberalism both on a historical and theoretical level Specifically it makes a classical liberal and libertarian analysis based upon homesteading and private property rights to defend the State of Israel As such this work explores the history of the Jewish State both to provide a positive case for its right to exist and to clarify the myths surrounding its origin and development At the same time it deals with other relevant related subjects such as the complex situation between Israel and the Palestinian Arabs the military campaigns against the Jewish State the connection between anti Zionism and anti Semitism and Israel's economic miracle The thorough analysis presented in this work intends to show not only why the voices and movements against Israel are

wrong including the Boycott Divestment and Sanctions movement BDS but more importantly why Israel is an example of human flourishing and freedom that every advocate for liberty should celebrate The Classical Liberal Case for Israel makes the practical and moral case for Israel It is based on truths and facts that need to be repeated over and over Block Futerman understand that the only way to defeat a big lie is with a big truth Benjamin Netanyahu Prime Minister of the State of Israel Jerusalem Israel Classical Liberalism often associated with the spread West from Northern Europe in creating free nations is argued here as applying to Israel with ancient roots in the principles of human freedom Vernon L. Smith Ph.D. Nobel Prize in Economic Sciences 2002 and Professor George L. Argyros Endowed Chair in Finance and Economics Professor of Economics and Law Smith Institute for Political Economy and Philosophy at Chapman University

historical events institutions and movements related to the religion of Judaism The Political Philosophy of Zionism Eyal Chowers, 2012-02-27 Zionism emerged at the end of the nineteenth century in response to a rise in anti-Semitism in Europe and to the crisis of modern Jewish identity This novel national revolution aimed to unite a scattered community defined mainly by shared texts and literary tradition into a vibrant political entity destined for the Holy Land As this remarkable book demonstrates however Zionism was about much more than a national political ideology and practice By tracing its origins in the context of a European history of ideas and by considering the writings of key Jewish and Hebrew writers and thinkers from the nineteenth and twentieth centuries the book offers an entirely new philosophical perspective on Zionism as a unique movement based on intellectual boldness and belief in human action In counter distinction to the studies of history and ideology that dominate the field this book also offers a new way of reflecting upon contemporary Israeli politics
