The Judaeo Christian Tradition Second Edition:

The Judaeo-Christian Tradition Jack H. Hexter, 1995-01-01 J H Hexter's classic survey of the historical roots of Judaism and Christianity is now available with a new preface and updated bibliography. The book defines the main components, principal influences and most significant transformations of ancient Hebrew religious beliefs and then considers those of Christianity, showing how early Christianity arose out of the Judaic heritage. The first part of the book deals with the evolution of ancient Israel down to the end of the sixth century B.C., the second chronicles the transition from Judaism to Christianity and the struggle of the early Christian communities against the pressures and power of the Roman Empire. Ranging over some 1500 years of ancient history, the book illuminates the cultural and intellectual impact of the Judaeo-Christian tradition.

Is there a Judeo-Christian Tradition? Emmanuel Nathan, Anya Topolski, 2016-03-21 The term Judeo-Christian in reference to a tradition, heritage, ethic, civilization, faith, etc., has been used in a wide variety of contexts with widely diverging meanings. Contrary to popular belief, the term was not coined in the United States in the middle of the 20th century but in 1831 in Germany by Ferdinand Christian Baur. By acknowledging and returning to this European perspective and context, the volume engages the historical, theological, philosophical and political dimensions of the term's development. Scholars of European intellectual history will find this volume timely and relevant.

Theological Reflection: Methods, 2nd Edition Elaine Graham, Heather Walton, Frances Ward, 2019-02-27 *Theological Reflections: Methods* offers a comprehensive collection of models of theological reflection. By bringing this diverse collection together in one place, the editors create a unique reference work that allows a clear and visible contrast and comparison as each model is treated formally and in a standard format. Throughout each chapter, the distinguishing features of the model are examined, the genealogy and origins are discussed, worked examples of the model applied to contemporary theology are provided, and critical commentary, future trends and exercises and questions are provided. Now firmly established as an essential text on theological reflection, this new edition has been revised and updated with a new introduction, updated examples and refreshed bibliographies.

God, Humanity and the Cosmos - 2nd Edition Christopher Southgate, 2005-12-01 Contributors include Christopher Southgate, John Hedley Brooke, Celia Deane Drummond, Paul D. Murray, Michael Robert Negus, Lawrence Osborn, Michael Poole, Jacqui Stewart, Fraser Watts, David Wilkinson. This fully revised and updated edition of *God, Humanity and the Cosmos* includes new chapters by John Hedley Brooke, Paul D. Murray and David Wilkinson. In addition to a systematic exploration of contemporary perspectives in physics, evolutionary biology and psychology as they relate to theological descriptions of the universe, humanity and consciousness, the book now provides a thorough survey of the theological, philosophical and historical issues underpinning the science-religion debate. Contributors also examine such issues as theological responses to the ecological crisis and to biotechnology, how science is treated and valued in education and the relation of science to Islamic thought. Dr Christopher Southgate is Lecturer in Theology at the University of Exeter.

Nietzsche, Metaphor, Religion Tim Murphy, 2001-10-18 Presents a radically anti foundationalist reading of Nietzsche s philosophy of religion

The Fate of Abraham Peter Osborne, 2022-05-12 As the Cold War faded into history it appeared to have been replaced by a new conflict between Islam and the West Or so we are told After the events of 9 11 and the advent of the war on terror this narrative seemed prophetic But as Peter Osborne reveals in this masterful new analysis the concept of an existential clash between the two is a dangerous and destructive fantasy Based on rigorous historical research and forensic contemporary journalism that leads him frequently into war torn states and bloody conflict zones Osborne explains the myths fabrications and downright lies that have contributed to this pernicious state of affairs He shows how various falsehoods run deep reaching back as far as the birth of Islam and have then been repurposed for the modern day Many in senior positions in governments across the West have suggested that Islam is trying to overturn our liberal values and even that certain Muslims are conspiring to take over the state while Douglas Murray claims in his new book that we face a War on the West But in reality these fears merely echo past debates as we continue to repeat the pattern of seemingly wilful ignorance With murderous attacks on Muslims taking place from Bosnia in 1995 to China today Osborne dismantles the falsehoods that lie behind them and he opens the way to a clearer and more truthful mutual understanding that will benefit us all in the long run

Jesus Reburied? John Wesley Pryor, 2013-08-09 What really happened to the body of Jesus after his crucifixion Was Jesus eventually reburied in a family tomb along with his wife and child How were crucified criminals treated under Roman and Jewish laws What did the earliest Christians mean when they proclaimed that Jesus was resurrected Was Mary Magdalene's role as wife of Jesus and apostolic leader of the Christian movement deliberately suppressed by the male leadership The discovery of bone boxes ossuaries inside two burial chambers in South Jerusalem has led to proposals that radically challenge the traditional understanding of Jesus and the early Christian movement This book examines the Jesus Family Tomb hypothesis and presents a comprehensive in-depth assessment

The Myth of the Clash of Civilizations Chiara Bottici, Benoît Challand, 2013-01-11 While globalization unifies the world divisions re-emerge within it in the form of a spectacular separation between Islam and the West How can it be that Huntington's contested idea of a clash of civilizations became such a powerful political myth through which so many people look at the world Bottici and Challand disentangle such a process of myth-making both in the West and in Muslim majority countries and call for a renewed critical attitude towards it By analysing a process of elaboration of this myth that took place in academic books arts and media comics and Hollywood films they show that the clash of civilizations has become a cognitive scheme through which people look at the world a practical image on the basis of which they act on it as well as a drama which mobilizes passions and emotions Written in a concise and accessible way this book is a timely and valuable contribution to the academic literature and more generally to the public debate As such it will be an important reference for scholars and students of political science sociology philosophy cultural studies Middle Eastern politics and Islam
