## **The Magical Sciences:**

Encyclopedia of Occult Sciences vol.VI Second Part (The Magical Sciences) Low Magic Poinso, Maffeo,2015-10-07 It follows from this phenomenon tested hundreds of times that every thing may carry around it an invisibly written history The same thing applies to the human being Every one of us carries around him a radiance invisible to the human eye but perceptible to the trained mind Inscribed in this radiance in the shape of pictures are the most important results of our thoughts and our actions In accordance with Tradition this radiance is termed the aura and there is an aura for every principle Thus there will be an aura of the physical body of very small extent an aura of the astral body an aura of the mind It is this last which was recognised by religious tradition surrounding the heads of saints and divinities with halos It is thanks to this radiance of the three principles of the human being that we can explain many seemingly strange phenomena such as sudden sympathies or antipathies intuitions and so called unconscious previsions etc Clairvoyance is also produced as we have said by means of a special magnetised condenser of the astral plane termed the Magic Mirror of which our author speaks in connection with the Arsenal of Magic just as he speaks of the visions seen in coffee grounds in the chapter dealing with divinations of the second degree And I quite understand the reserve which he shews here but perhaps he ought to have dealt separately at least with the psychometry which has been tested by experiments Our author it is felt gives but a limited belief to these divinations of the second degree Yet he describes conscientiously not the hundreds of ancient methods which are nearly forgotten but those of the Kabbala such as onomancy taromancy and also the oracles the prophecies which prove that the secret influences of this radiance govern many of our states of mind The Magical Sciences M. C. Poinso,2005-12-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **The Magical Science of Feelings** Jen Daily,2024-06-11 Clinical social worker Jen Daily helps kids understand the science behind feelings taking them on a lively tour of the brain to see where anger anxiety sadness and joy start and offering activities for calming emotions Where do feelings come from Are they magic No they re science There is a reason our tummies feel funny when we are worried and why we want to stomp and clench our fists when we feel mad With endearing illustrations the parts of the brain come alive as friendly characters who explain how emotions like happy sad mad worried and overwhelmed are created in the body Along with clear explanations about the origins of feelings author and clinical social worker Jen Daily provides creative coping skills and activities playfully called emotion potions that help build a child s ability to reflect cope calm anxious thoughts and welcome greater joy From dancing to storytelling and meditation the coping skills are accessible and effective for a wide range of social emotional needs and learning styles This publication conforms to the EPUB Accessibility specification at WCAG 2 0 Level AA The
