Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism Any thing more erroneous than this could hardly be imagined It has enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett s work ceased to be esoteric from the moment they were made public nor did the book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed from it for long ons and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception

From the first however protests were raised by Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budhism The Secret Doctrine (Vol. 1-3) Helena Blavatsky,2023-12-03 Helena Blavatsky's monumental work *The Secret Doctrine* Volumes 1-3 serves as an intricate tapestry weaving together elements of theology, philosophy and science integrating esoteric traditions with a profound exploration of the cosmos and human evolution. Written in a dense yet poetic literary style the text is structured around the dual doctrines of the universal and the individual rooted deeply in theosophical thought. Blavatsky draws upon a wide array of religious and philosophical sources including Eastern and Western esotericism to expound upon the idea of a hidden knowledge that transcends the physical realm, presenting her insights as both a critique of materialism and an invitation to spiritual awakening. Helena Blavatsky, a seminal figure in the Theosophical Society, was profoundly influenced by her travels to India and her studies of ancient wisdom traditions. Her quest for universal truths led her to challenge prevailing scientific and religious dogmas of the 19th century, positioning her as a pioneer of modern spirituality and a bridge between Eastern spirituality and Western thought. *The Secret Doctrine* is a must read for anyone intrigued by metaphysics, spirituality and the quest for knowledge that transcends conventional wisdom. Blavatsky's comprehensive examination of the world's mystical traditions invites readers to explore the depths of their own consciousness and the interconnectedness of all existence *The Secret Doctrine, Volume I. Cosmogogenesis* H. P. Blavatsky,2021-11-16 *The Secret Doctrine Volume I Cosmogogenesis* H P Blavatsky The authorthe writer ratherfeels it necessary to apologize for the long delay which has occurred in the appearance of this work. It has been occasioned by ill health and the magnitude of the undertaking. Even the two volumes now issued do not complete the scheme nor do these treat exhaustively of the subjects dealt with in them. A large quantity of material has already been prepared dealing with the history of Occultism as contained in the lives of the great Adepts of the ryan Race and showing the bearing of Occult Philosophy upon the conduct of life as it is and as it ought to be. Should the present volumes meet with a favourable reception no effort will be spared to carry out the scheme of the work in its entirety. This scheme it must be added was not in contemplation when the preparation of the work was first announced. As originally announced it was intended that *The Secret Doctrine* should be an amended and enlarged version of *Isis Unveiled*. It was however soon found that the explanations which could be added to those already put before the world in the last named and other works dealing with Esoteric Science were such as to require a different method of treatment and consequently the present volumes do not contain in all twenty pages extracted from *Isis Unveiled* **The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy Volume I: Cosmogogenesis** Helena Petrovna Blavatsky,2018-02-24 The first book in the monumental work of Theosophic thought. This book focuses on gaining occult power in the formation of the universe and the cosmos. This group sought to learn the secrets of nature, science and divinity in order to empower themselves to godhood and this book reveals their secrets as to how

knowledge to do this can be attained It does not reveal what the ultimate saving knowledge is that can do this but it gives guidelines on how to start the journey for yourself The Secret Doctrine Helena Petrovna Blavatsky,2022-12-17 The Secret Doctrine Helena Petrovna Blavatsky s masterwork on the origin and evolution of the universe and humanity itself is arguably the most famous and perhaps the most influential occult book ever written Published since 1888 it has long eluded the grasp of modern readers until now A sourcebook of the esoteric tradition outlining the fundamental tenets of the Secret Doctrine of the Archaic Ages This title addresses the perennial questions continuity of life after death purpose of existence good and evil consciousness and substance sexuality karma evolution and human and planetary transformation **The Secret Doctrine of Water** 777,2005-03 The Secret Doctrine of Water is the essence of psychology and the vehicle of this aeon s evolution It is literally a map to the Holy Grail Contact information Temple of Natural Science P O Box 641 Bloomington IN 47402 Temple777 hotmail com **The Secret Doctrine** H.P. Blavatsky,1917 **The Secret Doctrine** H. P. Blavatsky,2015-11-17 The aim of this work may be thus stated to show that Nature is not a fortuitous concurrence of atoms and to assign to man his rightful place in the scheme of the Universe to rescue from degradation the archaic truths which are the basis of all religions and to uncover to some extent the fundamental unity from which they all spring finally to show that the occult side of Nature has never been approached by the Science of modern civilization But it is perhaps desirable to state unequivocally that the teachings however fragmentary and incomplete contained in these volumes belong neither to the Hindu the Zoroastrian the Chaldean nor the Egyptian religion neither to Buddhism Islam Judaism nor Christianity exclusively The Secret Doctrine is the essence of all these Sprung from it in their origins the various religious schemes are now made to merge back into their original element out of which every mystery and dogma has grown developed and become materialised It is needless to explain that this book is not the Secret Doctrine in its entirety but a select number of fragments of its fundamental tenets special attention being paid to some facts which have been seized upon by various writers and distorted out of all resemblance to the truth *The Secret Doctrine, Volume II. Anthropogenesis* H. P. Blavatsky,2021-11-16 The Secret Doctrine Volume II Anthropogenesis H P Blavatsky The Secret Doctrine is the seminal work of the Theosophical Movement and established Blavatsky as one of the most vocal and outspoken advocate of the Wisdom Teachings of the East Almost every contemporary spiritual movement can trace its lineage back to the impulses expressed most consummately in this Blavatsky s Magnum Opus Based upon a disclosure and exposition of the hitherto unknown and academically quite controversial Stanzas of Dzyan The Secret Doctrine elaborates on the teachings first brought to the world through the Masters Koot Humi and Morya and introduced in A P Sinnett s Esoteric Buddhism to which Blavatsky continuously refers and clarifies In the two volumes the first being Cosmogogenesis she portrays a sweeping vision of the evolution of humanity and the cosmos out of the spirit unfolding in rounds and cycles of descent and reascent from and to the spirit through cycles of reincarnation This ebook edition has been meticulously prepared with over 1000 footnotes linked from within the text This
