The Making Of The Modern World:

The Making of the Modern World Christopher Condon, 1987 **The Making of the Modern World A.** Macfarlane, 2001-12-17 At the start of the third Christian millennium we are aware of massive political economic and ideological changes which condition the chances of liberty wealth and equality Yet it is surprisingly difficult for us to understand these forces for we cannot see what surrounds us so closely This book analyses our condition by looking at the work of two great thinkers one of whom provides a deep historical perspective the other a wide comparative analysis F W Maitland 1850 1906 was more than the greatest professional historian of modern times he was a philosopher who provides a brilliant sketch of how our strange world has come about particularly in his work on associations and trusts Yukichi Fukuzawa 1835 1901 more than any other created the institutions of modern Japan As an outsider he provides a brilliant insight into the heart of the new capitalist and industrial civilization which had emerged in the west Genghis Khan and the Making of the Modern World Jack Weatherford, 2005-03-22 NEW YORK TIMES BESTSELLER The startling true history of how one extraordinary man from a remote corner of the world created an empire that led the world into the modern age by the author featured in Echoes of the Empire Beyond Genghis Khan The Mongol army led by Genghis Khan subjugated more lands and people in twenty five years than the Romans did in four hundred In nearly every country the Mongols conquered they brought an unprecedented rise in cultural communication expanded trade and a blossoming of civilization Vastly more progressive than his European or Asian counterparts Genghis Khan abolished torture granted universal religious freedom and smashed feudal systems of aristocratic privilege From the story of his rise through the tribal culture to the explosion of civilization that the Mongol Empire unleashed this brilliant work of revisionist history is nothing less than the epic story of how the modern world was made **EBOOK: A Short History of Society: The Making of the Modern World** Mary Evans, 2006-12-16 A brilliant inquiry into culture and society over some seven centuries Mary Evans explores the origins and trajectories of modernity from the Reformation through the Enlightenment to the contemporary period Her intellectual control of complex ideas and diverse forms of evidence is consistently impressive Exploring various pessimistic dystopian strands in European perspectives on modernity by Friedrich Nietzsche Max Weber and Theodor Adorno she defends a balanced view of both the negative and positive consequences of modernization This is historical sociology at its best judicious theoretically informed carefully crafted grounded in empirical research and above all intellectually clever A Short History of Society will prove to be a valuable companion to the student who needs a concise scholarly and sociological overview of modernity Bryan Turner National University of Singapore A Short History of Society is a concise account of the emergence of modern western society It looks at how successive generations have understood and explained the world in which they lived and examines significant events since the Enlightenment that have led to the development of society as we know it today The book spans the period 1500 to the present day and discusses the social world in terms of both its politics

and its culture This book is ideal for undergraduate students in the social sciences who are perplexed by the myriad of events and theories with which their courses are concerned and who need a historical perspective on the changes that shaped the contemporary world *The Middle East and the Making of the Modern World* Cyrus Schayegh,2017-08-28 How do historians make sense of the spatial layeredness of the past Cyrus Schayegh argues that the modern world s ultimate socio spatial feature is not the oft studied processes of globalization or state formation or urbanization but rather the fast paced mutually transformative intertwinements of cities regions states and global circuits **The Great War and the Making of the Modern World** Jeremy Black,2011-03-17 This new work demonstrates how the outcome of the First World War has formed the modern world we live in today The First World War was the Great War for its leading participants In revisiting the events of 1914 1918 a century on Jeremy Black considers how we now look at the impact of the conflict across the globe and how it came to be World War I in our consciousness For millions both soldiers and civilians the conflict proved fatal The suffering and loss of the war provides much of its resonance and significance but this book seeks to throw light beyond this not least in asking how it ended in victory and defeat Casting aside the conventional narrative Jeremy Black returns to a vast range of original sources and investigates not only the key events of the war but its consequences in restructuring the old order As its significance has changed with time and not only with the loss of first hand testimony Black considers the struggle not only in its historical context but through its memorialisation today *The Origins of the Modern World* Robert B. Marks,Robert Marks,2007 The Origins of the Modern World offers a refreshing alternative to Eurocentric histories by exploring the roles that Asia Africa and the New World played in creating the world we know today Starting in 1400 it brings the saga of the modern world to the present considering how and why the United States emerged as a world power in the 20th century and why Asia is experiencing resurgence now *Revolution in the Making of the Modern World* John Foran,David Lane,Andreja Zivkovic,2007-11-05 Featuring contributions from leading thinkers on revolution it combines theoretical concerns with case studies of individual revolutions to question whether ideas of revolution are still relevant in the postmodern and globalized world of the twenty first century **The Origins of the Modern World** Robert B. Marks,2024-01-02 This clearly written and engrossing book presents a global narrative of the origins of the modern world from 1400 to the present Unlike most studies which assume that the rise of the West is the story of the coming of the modern world this history drawing upon new scholarship on Asia Africa and the New World and upon the maturing field of environmental history constructs a story in which those parts of the world play major roles including their impacts on the environment Robert B Marks defines the modern world as one marked by industry the nation state interstate warfare a large and growing gap between the wealthiest and poorest parts of the world increasing inequality within the wealthiest industrialized countries and an escape from the environmental constraints of the biological old regime He explains its origins by emphasizing contingencies such as the conquest of the New World the broad comparability of the most advanced regions

in China India and Europe the reasons why England was able to escape from common ecological constraints facing all of those regions by the end of the eighteenth century a conjuncture of human and natural forces that solidified a gap between the industrialized and non industrialized parts of the world the mounting environmental crisis that defines the modern world and the ways in which the forces of globalization stress the economic and political underpinnings of the modern world Now in a new edition that brings the saga of the modern world to the present in an environmental context the book considers how and why the United States emerged as a world power in the twentieth century and became the sole superpower by the twenty first century and why the changed relationship of humans to the environment likely will be the hallmark of the modern era the Anthropocene Once again arguing that the US rise to global hegemon was contingent not inevitable Marks also points to the resurgence of Asia and the vastly changed relationship of humans to the environment that may in the long run overshadow any political and economic milestones of the past hundred years **Remaking the Modern World 1900 -**

Nicholson, 2023-03-17 Race Nation and Capital in the Modern World is a comprehensive yet concise book that traces the history of racism nationalism and capitalism from their combined origins at the end of the fifteenth century to the present This book describes the development of legal codes and institutional practices that brought vast wealth and power to their chief beneficiaries along with great suffering exploitation and destruction to its victims Instead of understanding racism as an aberration or dark flaw in the troubled past of a world power like the United States this synthesis places race and racism in the forefront of the unfolding history of nationalism and capitalism The work de emphasizes the uniqueness of each nation s particular experience by showing the interdependence of capitalist and racist practices The narrative follows the leading hegemonic national powers as they expanded from mercantile conquests through plantation enslavement massive displacement of populations colonialism global warfare and finally the tenacious contemporary aftermath There are no comparable surveys for undergraduates or general readers seeking a unified historical understanding of these primary drivers of modernity It is a provocative introductory guide and not a work of political theory This volume will appeal to students scholars and those interested in studies on racism race capital the history of inequality and human and civil rights
