Salleh, 2010 A History of Malaysia Barbara Watson Andaya, Leonard Y. Andaya, 2001-01-01 Malaysia s multicultural society supports one of the most dynamic economies in Asia This completely revised new edition of the standard text first published twenty years ago traces the history of the country from early times to the present day The authors give particular attention to the evolution of Malay politics and their close links with indigenous groups who lived on the oceans and in the deep jungles of the region from Sumatra to Borneo This provides the background to the establishment of the Malay port of Melaka which was conquered by the Portuguese in 1511 foreshadowing the establishment of a British colonial regime in the late nineteenth century Although

the large numbers of Chinese and Indian migrants who arrived to work in the tin and rubber industries contributed to economic expansion colonial policies did not encourage communal interaction The authors trace the process by which post independence leaders in Malaya attempted to counter the legacy of ethnic hostility while answering Malay demands for an affirmation of their rights and a stronger commitment to Islam The incorporation of the Borneo states of Sarawak and Sabah into the Federation of Malaysia in 1963 rendered the goal of welding a nation from areas that were geographically separated and culturally disparate even more problematic The intense emotions attached to issues of race were made tragically evident in the racial riots of May 1969 which this book sees as a watershed in modern Malaysian history As Malaysia enters the twenty first century the government is determined to oversee the transition to an economy focused on manufacturing and advanced technology and to eliminate poverty and the association between occupation and race While several recent studies deal with the impact of colonial rule and Malaysia s spectacular economic transition this book is unique because it tracks developments from early times and identifies continuities as well as change Combining the authors specialist knowledge of precolonial sources with the most recent contemporary research this new edition reinforces the position of A History of Malaysia position as a standard reference for all those interested in the historical processes which led to the emergence of this culturally varied and economically energetic country

Sutjipto Wirjosuparto,1964      **Decolonizing the History Curriculum in Malaysia and Singapore** Kevin Blackburn,ZongLun Wu,2019-05-09 Decolonizing the History Curriculum in Malaysia and Singapore is a unique study in the history of education because it examines decolonization in terms of how it changed the subject of history in the school curriculum of two colonized countries Malaysia and Singapore Blackburn and Wu s book analyzes the transition of the subject of history from colonial education to postcolonial education from the history syllabus upholding the colonial order to the period after independence when the history syllabus became a tool for nation building Malaysia and Singapore are excellent case studies of this process because they once shared a common imperial curriculum in the English language schools that was gradually decolonized to form the basis of the early history syllabuses of the new nation states they were briefly one nation state in the early to mid 1960s The colonial English language history syllabus was decolonized into a national curriculum that was translated for the Chinese Malay and Tamil schools of Malaysia and Singapore By analyzing the causes and consequences of the dramatic changes made to the teaching of history in the schools of Malaya and Singapore as Britain ended her empire in Southeast Asia Blackburn and Wu offer fascinating insights into educational reform the effects of decolonization on curricula and the history of Malaysian and Singaporean education      The Cultural Heritage of Malaya N. encountered new trading partners new environments and new opportunities In the Caribbean and Atlantic coast of the Americas European mariners sought everything from pearls to gold to codfish and in pursuing these resources they fractured Indigenous communities Entering into the ancient monsoon routes of the Indian Ocean brought European ships in touch with the powerful states and maritime cultures of East Africa and Asia Converging on the vast Pacific basin both from the Americas and from Asia brought these mariners into contact with ancient cultures dangerous passages and newly global trade routes During this period of globalization and cultural encounters the ocean provided a means of transportation a site of environmental hostility and a poetic metaphor for both connection and alienation In material and cultural ways the global sea routes traveled during this period laid down structures of global exchange and conflict that the world still follows today
