The Male His Body His Sex:

Revealing Male Bodies Nancy Tuana, 2002-05-06 *Revealing Male Bodies* is the first scholarly collection to directly confront male lived experience. There has been an explosion of work in men's studies, masculinity issues, and male sexuality in addition to a growing literature exploring female embodiment. Missing from the current literature, however, is a sustained analysis of the phenomenology of male gendered bodies. *Revealing Male Bodies* addresses this omission by examining how male bodies are physically and experientially constituted by the economic, theoretical, and social practices in which men are immersed. Contributors include Susan Bordo, William Cowling, Terry Goldie, Maurice Hamington, Don Ihde, Greg Johnson, Björn Krondorfer, Alphonso Lingis, Patrick McGann, Paul McIlvenny, Terrance MacMullan, Jim Perkinson, Steven P. Schacht, Richard Schmitt, Nancy Tuana, Craig L. Wilkins, and John Zuern.

The Personality of a Child Molester Calvin Hall, 2017-07-12 *The Personality of a Child Molester* argues two main points. The first is that dreams, without free associations or amplification or knowledge of the dreamer, can shed considerable light upon the essential character, structure, psychodynamics, and psychosexual development of such individuals. The second is that the frequency of occurrence of a dream element or theme is a direct measure of the preoccupation with that topic in waking life. Bell and Hall gather their evidence from a wide assortment of data. Such evidence helps increase our understanding of such people whose life and self-revelations on first appearance seem to merit this special attention. Interestingly, their study involved little collaboration on the part of the authors. In fact, the authors only met each other two years after the project got underway. At that time, they reached an understanding as to how the material would be presented. They decided to demonstrate child molesters' dream content from a theoretical perspective. The theoretical base provided by Freudian theory was used in this particular study because it seemed to provide the kinds of constructs that could be useful in describing the dreamer's personality. The authors attempt to explain why the dreamer who is a child molester is the sort of person he is, and his dreams are the source of evidence for the explanation presented. This study presented here has been used by behavioral researchers for years in trying to understand the personality of a child molester. It remains as relevant today as when it was initially published.

In the Flesh Erika Zimmermann Damer,2019-03-12 In the Flesh deeply engages postmodern and new materialist feminist thought in close readings of three significant poets Propertius Tibullus and Ovid writing in the early years of Rome s Augustan Principate In

their poems they represent the flesh and blood body in both its integrity and vulnerability as an index of social position along intersecting axes of sex gender status and class Erika Zimmermann Damer underscores the fluid dynamic and contingent nature of identities in Roman elegy in response to a period of rapid legal political and social change Recognizing this power of material flesh to shape elegiac poetry she asserts grants figures at the margins of this poetic discourse mistresses rivals enslaved characters overlooked members of households their own identities even when they do not speak She demonstrates how the three poets create a prominent aesthetic of corporeal abjection and imperfection associating the body as much with blood wounds and corporeal disintegration as with elegance refinement and sensuality In-Between Bodies Mary K.

Bloodsworth-Lugo, 2007-10-04 Connects theories of sexual difference to race and queer theories through a focus on in between bodies **Gender Stories** Sonja K. Foss, Mary E. Domenico, Karen A. Foss, 2012-06-06 Essential for anyone who seeks to understand the contemporary gender landscape Gender Stories defines gender as the socially constructed meanings that are assigned to bodies The book helps readers navigate issues of gender by introducing them to the ubiquitous gender binary the problems with much of the research on gender differences and the variety of gender stories in popular culture At the heart of the book is a description of the process of becoming a gendered person through crafting and performing gender stories Because each gender performance is unique a virtually unlimited number of genders exists not just two as the gender binary would have us believe The same multiplicity that characterizes the gender landscape characterizes the individual who typically changes gender multiple times a day and across the lifespan In Gender Stories personal gender performances are framed within a philosophy of choice Readers are encouraged to become more conscious of the choices they have in constructing their gender identities and to allow others the same choice by respecting their gender performances Readers will easily find a place for themselves in the book regardless of their views on gender because one perspective on gender is not presented as the right one Gender Stories affirms and legitimizes diverse perspectives as providing more comprehensive knowledge about gender for everyone **Collected papers** Gladwyn Kingsley Noble, 1925 *The Male Brain* Louann
