The Mammoth Of War Correspondents:

The Mammoth Book of War Correspondents Jon E. Lewis, 2001 Beginning with William Howard Russell's reports from Crimea which mark the birth of war reportage and ending on the battle lines in Bosnia this remarkable anthology features a collection of one hundred of the greatest war dispatches ever written in the history of journalism including works by William L Shirer Edward R Murrow Martha Gellhorn and Seymour Hersh Original *The Woman War Correspondent, the U.S. Military, and the Press* Carolyn M. Edy, 2016-12-13 Honorable Mention recipient for the American Journalism Historians Association Book of the Year Award this book outlines the rich history of more than 250 women who worked as war correspondents up through World War II while demonstrating the ways in which the press and the military both promoted and prevented their access to war Despite the continued presence of individual female war correspondents in news accounts if not always in war zones it was not until 1944 that the military recognized these individuals as a group and began formally considering sex as a factor for recruiting and accrediting war correspondents This group identity created obstacles for women who had previously worked alongside men as war correspondents while creating opportunities for many women whom the military recruited to cover woman's angle news as women war correspondents This book also reveals the ways the military and the press as well as women themselves constructed the concepts of woman war correspondent and war correspondent and how these concepts helped and hindered the work of all war correspondents even as they challenged and ultimately expanded the public's understanding of war and of women

The Mammoth Book of How it Happened: World War I Jon E. Lewis, 2012-03-01 The spectre of the Great War still haunts us No other conflict so dramatically illustrates the waste of life and the slaughter of innocents as that of 1914-18 And none has so dramatically shaped the modern world the Russian Revolution the rise of Hitler the break up of Empire the supremacy of America and World War II all stem from the four years of the war to end all wars Here is the eye witness chronicle of that war from the trenches of Flanders to the staff rooms of the Imperial Germany Army from T E Lawrence in the desert to the Red Baron in the air from Land Girls in England to German U boat crews in the Atlantic it leaves nothing out And if all the horror of the war fought by the Tommies in the trenches is captured so too are the machinations of the top brass and politicians

The Mammoth Book of Combat Jon E. Lewis, 2013-03-07 Over a hundred eyewitness accounts of the reality of combat from some of the finest writers of the last century and our own Lucid vivid complex images of conflict from Walt Whitman on the American Civil War to contemporary reporting from Afghanistan The collection includes Martha Gellhorn on the Battle of the Bulge Michael Herr at Khe Sanh David Rohde's and Anthony Shadid's Pulitzer winning accounts of Bosnia and Iraq respectively Christina Lamb's famous account of being under fire from the Taliban Robert Fisk on being attacked in Afghanistan and Nicholas Tomalin's The General Goes Zapping Charlie Kong one of the inspirations for Apocalypse Now among many other pieces of exceptional war reporting

American Journalists in the Great War Chris Dubbs (Military historian), 2017 When war erupted in Europe in 1914 American journalists hurried across the Atlantic ready to cover it the same way they had covered so many other wars However very little about this war was like any other Its scale brutality and duration forced journalists to write their own rules for reporting and keeping the American public informed *American Journalists in the Great War* tells the dramatic stories of the journalists who covered World War I for the American public Chris Dubbs draws on personal accounts from contemporary newspaper and magazine articles and books to convey the experiences of the journalists of World War I from the western front to the Balkans to the Paris Peace Conference Their accounts reveal the challenges of finding the war news transmitting a story and getting it past the censors Over the course of the war reporters found that getting their scoop increasingly meant breaking the rules or redefining the very meaning of war news Dubbs shares the courageous harrowing and sometimes humorous stories of the American reporters who risked their lives in war zones to record their experiences and send the news to the people back home

War Correspondent Michael Moynihan, 1994-06-01 The offhand admission to the doctor at the recruiting centre that he suffered from asthma as a boy was enough to put an end to Michael Moynihan's military career even before it started However this unpropitious beginning was eventually to lead to a wartime career far more dramatic than anything he could have imagined had he been allowed to don the King's uniform For after a provincial grounding as a cub reporter in the North he moved to London and soon became a war correspondent on the now long defunct *News Chronicle* then one of the leading newspapers in Fleet Street Prior to that he had acclimatised himself to a *via de boheme* in violent contrast to an upbringing largely centred around the near by Strict and Particular Baptist Chapel and which gave him the opportunity to make the acquaintance of the likes of Dylan Thomas Tambimuttu and his cousin Rodrigo the painter Then came D Day and he is off to France He is present at the Liberation of Paris He covers the Arnhem fiasco from the air He is in the American sector during the Battle of the Bulge He is sent to the Far East and flies the first dispatch from Hiroshima And those are just a few of the highlights From his own dispatches many of which in those space starved days were never published from his on the spot diaries and letters to friends and relations and from his won memories Michael Moynihan has woven a tapestry which vividly brings to life the quite remarkable adventure of a man who was considered too unfit to fight for his country but who managed to serve it with as much courage as any who came home with a chest covered with medals

The Mammoth Book of How it Happened: World War II Jon E. Lewis, 2012-03-01 In his account of World War II historian Jon Lewis has selected 300 first hand accounts from Heinz Guderian rolling his panzer tank into Poland to VJ Day in London and New York More than a eyewitness chronicle this collection gives the reader an insight into how the repercussions from

the war shaped our modern world and how nothing from geo politics to rock n roll can really be understood without considering it

The Forgotten Trail to Appomattox Randy Denmon,2018-09-01 Of the forty five Civil War Battles that the National Park Service lists as Decisive only about half have been preserved by the Park Service The Federal Government s preservation efforts have made tiny out of the way places that shouldn t be known outside the county in which they are located into sacred names in the American psyche Chancellorsville Gettysburg Petersburg Manassas Antietam Spotsylvania and Shiloh Many of the other battles no less important weren t so lucky in the allotment of federal dollars Some of these other battlefields have been lost to time or neglect or urbanization but just as many have been preserved by states

local governments or preservation organizations. These are the battlefields along with other landmarks that Randy Denmon explores in *The Forgotten Trail to Appomattox*. It is part military history, part travelogue, and part personal insight in the spirit of Bill Bryson's books such as *A Walk in the Woods*; it is both informative and entertaining.
