The Man On Horseback The Role Of The Military In Politics:

The Man On Horseback Samuel Edward Finer, 1988-04-13 In this work Finer d 1993 he taught government at Manchester U and Oxford U UK proposes a paradigm for the role of the military in politics that is based on the inherent weakness of the military in politics on the one hand and their potential for intervention on the other The book was first published by Pall Mall Press in 1962 this new edition contains an introduction by Jay Stanley sociology Towson U who is on the advisory council and editor for the journal of the Inter University Seminar on Armed Forces and Society Annotation copyrighted by Book News Inc Portland OR

The Man on Horseback Samuel Finer, 2017-07-14 The role of the military in a society raises a number of issues How much separation should there be between a civil government and its army Should the military be totally subordinate to the polity Or should the armed forces be allowed autonomy in order to provide national security Recently the dangers of military dictatorships as have existed in countries like Panama Chile and Argentina have become evident However developing countries often lack the administrative ability and societal unity to keep the state functioning in an orderly and economically feasible manner without military intervention Societies of course have dealt with the realities of these problems throughout their histories and the action they have taken at any particular point in time has depended on numerous factors In the first world of democratic countries the civil military relationship has been thoroughly integrated and indeed by most modern standards this is seen as essential However several influential Western thinkers have developed theories arguing for the separation of the military from any political or social role Samuel Huntington emphasized that professionalism would presuppose that the military should intervene as little as possible in the political sphere Samuel E Finer in contrast emphasizes that a government can be efficient enough way to keep the civil military relationship in check ensuring that the need for intervention by the armed forces in society would be minimal At the time of the book s original publication perhaps as a consequence of a post World War II Cold War atmosphere this was by no means a universally accepted position Some considered the military to be a legitimate threat to a free society Today s post Cold War environment is an appropriate time to reconsider Finer s classic argument The Man on Horseback continues to be an important contribution to the study of the military s role in the realm of politics and will be of interest to students of political science government and the military

The Man on Horseback Samuel Edward Finer, 2002-08-01 The role of the military in a society raises a number of issues How much separation should there be between a civil government and its army Should the military be totally subordinate to the polity Or should the armed forces be allowed autonomy in order to provide national security Recently the dangers of military dictatorships as have existed in countries like Panama Chile and Argentina have become evident However developing countries often lack the administrative ability and societal unity to keep the state functioning in an orderly and economically feasible manner without military intervention Societies of course have dealt with the realities of

these problems throughout their histories and the action they have taken at any particular point in time has depended on numerous factors. In the first world of democratic countries the civil military relationship has been thoroughly integrated and indeed by most modern standards this is seen as essential. However several influential Western thinkers have developed theories arguing for the separation of the military from any political or social role. Samuel Huntington emphasized that professionalism would presuppose that the military should intervene as little as possible in the political sphere. Samuel E. Finer in contrast emphasizes that a government can be efficient enough way to keep the civil military relationship in check ensuring that the need for intervention by the armed forces in society would be minimal. At the time of the book's original publication perhaps as a consequence of a post World War II Cold War atmosphere this was by no means a universally accepted position. Some considered the military to be a legitimate threat to a free society. Today's post Cold War environment is an appropriate time to reconsider Finer's classic argument. *The Man on Horseback* continues to be an important contribution to the study of the military's role in the realm of politics and will be of interest to students of political science, government and the military.

THE MAN ON HORSEBACK. THE ROLE OF THE MILITARY IN POLITICS. BY SAMUEL EDWARD FINER. Samuel E. Finer, 1969 *Public Administration, Sixth Edition, A Comparative Perspective.* Ferrel Heady, 2001-02-13 Continuing in the standard of excellence set by previous editions this sixth edition assesses the bureaucracies and development of governments around the world providing helpful and revealing analyses of the relationships between bureaucracies and political regimes. With over 1000 literature references, tables and drawings the book has been updated to reflect changes in the political systems of the former Soviet Union, Eastern Europe and the developing world. The editor clearly articulates recent developments in the shifting global political landscape and discusses how conditions in development, administration and comparative public policy affect nation states.

Military Professionalism in Asia Muthiah Alagappa, 2001 This authoritative book explores the influential but controversial concept of military professionalism and its role in civil military relations. Focusing on the evolution of military professionalism in ten key Asian countries the authors investigate its conception, practice and consequences. Combining the expertise of military officers

and scholars from the region the study argues that old professionalism is on the rise in Asia as the role of coercion in governance has been reduced and the distribution of power has shifted away from the military in favor of political and civil society
