Cumbow, 2008 Sergio

Leone's renown as a filmmaker rests upon a fistful of films most notably the three Westerns he made with Clint Eastwood in the mid 1960s *A Fistful of Dollars* 1964 *For a Few Dollars More* 1965 and *The Good, the Bad and the Ugly* 1966. While the success of these movies ensured Leone's reputation would endure, the few films he made following *The Man with No Name* Trilogy culminating in his American gangster epic *Once Upon a Time in America* 1984 with Robert DeNiro would solidify Leone's place as one of the great visionaries of his time. In this enhanced revision of *Once upon a Time: The Films of Sergio Leone* Robert C. Cumbow examines the work of this Italian filmmaker who made his mark re-envisioning the American Western. This volume includes a greatly expanded introduction and contains newly revised essays in which Cumbow analyzes the transition from peplum films to westerns in the Italian popular tradition. The book also examines each of Leone's major films as director as well as the swan song Italian Western *My Name Is Nobody* which Leone co-wrote and guided as producer. Cumbow also studies Leone's compositional style and the influence of Catholicism and the Italian grand opera tradition on his work. He provides a critical evaluation of Leone's style in reshaping the Western genre and later the crime film as well as an assessment of the influences on Leone's work and his continuing impact on subsequent generations of film makers. Additional features of this book include thumbnail comments on the professionals who most frequently made up Leone's cast and crew as well as an entire chapter devoted to composer Ennio Morricone. The book also includes an exhaustive bibliography, discography, and filmography completely updated for this new edition. For fans and scholars seeking original and illuminating discussion of his work, *The Films of Sergio Leone* provides a critical appreciation of this master stylist.

Film Semiotics, Metz, and Leone's Trilogy Lane Roth, 2014-01-23. Semiotics offers a systematic approach to analysing the stylistic structure of film. When this study was originally published in 1983, this was a recent addition to the methods of film study and it presents an explanation of film semiotics with direct application to comparative film research. It takes as its representative subject one trilogy of films and applies semiology with careful textual analysis. The book begins with a basic introduction to semiotics and the ideas of Christian Metz on cine-semiotics. It then presents a syntagmatic analysis of each of the three Dollars films with an outline of autonomous segments for each and a discussion of the findings before undertaking a wider analysis of the trilogy as a whole with commentary on the stylistic unity of the director's work. This book is an enduring detailed study of these three films also outlining clearly this method of classifying the formal structuring codes of film communication.

EU Copyright Law Harmonisation Estelle Derclaye, Gilles Stupfler, 2025-09-18. This book provides the first comprehensive comparative and empirical analysis of the state of harmonisation in EU copyright law in the 27 Member States and the UK at the level of national courts. For 3 decades the EU has harmonised many aspects of copyright law via EU legislation and the case law of the Court of Justice of the EU (CJEU). However, it is not known whether national courts actually comply with it as a comprehensive analysis of the national case law has not yet been done. This book addresses this major gap in the literature. In the book, a lawyer and a statistician analyse some of the most recent decisions on EU copyright law issued by the 27 Member

States and the UK pre and post Brexit using doctrinal and quantitative methodologies The main research question addressed is whether there is disharmony in the national case law and whether this is owed to Members States misimplementing EU copyright legislation lack of clarity of EU legislation and or case law or national courts being unaware misinterpreting or resisting CJEU case law The book provides detailed legal analyses and descriptive statistics per topic per type of work per country across countries and over time supported by statistical analysis Its findings and in depth reflections on the law and how to improve it are of crucial relevance for policymakers and the judiciary at EU and national level and will interest scholarly audiences in the UK EU EEA and beyond
