Proceedings of the United States Naval Institute United States Naval Institute, 2000 United States Naval Institute Proceedings , 2000 The Routledge Companion to Marine and Maritime Worlds 1400-1800 Claire Jowitt, Craig Lambert, Steve Mentz, 2020-05-21 This book has been nominated for The Mountbatten Award for Best Book in the Maritime Media Awards 2021 The Routledge Companion to Marine and Maritime Worlds 1400 1800 explores early modern maritime history culture and the current state of the research and approaches taken by experts in the field Ranging from cartography to poetry and decorative design to naval warfare the book shows how once traditional and often Euro chauvinistic depictions of oceanic mastery during the early modern period have been replaced by newer global ideas This comprehensive volume challenges underlying assumptions by balancing its assessment of the consequences and accomplishments of European navigators in the era of Columbus da Gama and Magellan with an awareness of the sophistication and maritime expertise in Asia the Arab world and the Americas By imparting riveting new stories and global perceptions of maritime history and culture the contributors provide readers with fresh insights concerning early modern entanglements between humans and the vast unpredictable ocean With maritime studies growing and the ocean s health in decline this volume is essential reading for academics and students interested in the historicization of the ocean and the ways early modern cultures both conceptualized and utilized seas A Companion to Astronomy and Astrophysics Kenneth R. Lang, 2007-01-15 Astronomy and Astrophysics is a comprehensive fundamental up to date reference book It is filled with vital information and basic facts for amateur astronomers and professional astrophysicists and for anyone interested in the Universe from the Earth and other planets to the stars galaxies and beyond Although serious and thorough the language and ideas will attract the general reader as well as students and professionals Astronomy and Astrophysics consists of two main parts a Timeline and a Dictionary The Timeline is a concise history arranged chronologically which provides the complete story of cosmic discovery from early Chinese and Greek astronomy to the latest findings of modern astrophysics and robotic spacecraft It provides a sense of destination and flow in our growing awareness of the Universe Each entry in the unfolding narrative is written in a concise light and friendly style that will be appreciated by all without being weighted down with incomprehensible specialized terms The story of science is one of individuals as well as discoveries and ideas So our Timeline includes the people who have made major scientific contributions that are related to astronomy and astrophysics The Dictionary defines all terms and acronyms that deal with our celestial science from important concepts to individual objects and space missions It is arranged alphabetically and complemented by numerous tables of fundamental data for bright cosmic objects including the celestial coordinates required to observe them Line drawings are also used to forcefully compact a scientific insight with clear labels and captions An exceptionally thorough Index cross references concepts discoveries and individuals in both the Timeline and Dictionary The combined result is a unique comprehensive stand alone reference volume in which the reader
