The German Army Vol 3 Vol 3 Decline And Fall

David Kirk

The German Army Vol 3 Vol 3 Decline And Fall:

The Decline and Fall of the Ottoman Empire Alan Palmer, 1994 Like England's Charles II the Ottoman Empire took an unconscionable time dying. Since the seventeenth century observers had been predicting the collapse of this so-called Sick Man of Europe yet it survived all its rivals. As late as 1910 the Ottoman Empire straddled three continents. Unlike the Romanovs, Habsburgs or Hohenzollerns the House of Osman, which had allied itself with the Kaiser, was still recognized as an imperial dynasty during the peace conference following World War I. The Decline and Fall of the Ottoman Empire offers a provocative view of the empire's decline from the failure to take Vienna in 1683 to the abolition of the Sultanate by Mustafa Kemal Atatürk in 1922 during a revolutionary upsurge in Turkish national pride. The narrative contains instances of violent revolt and bloody reprisals such as the massacres of Armenians in 1896 and other ethnic episodes in Crete and Macedonia. More generally it emphasizes recurring problems: competition between religious and secular authority; the acceptance or rejection of Western ideas; and the strength or weakness of successive Sultans. The book also highlights the special challenges of the early twentieth century when railways and oilfields gave new importance to Ottoman lands in the Middle East. Events of the past few years have placed the problems that faced the last Sultans back on the world agenda. The old empire's outposts in the Balkans and in Iraq are still considered trouble spots. Alan Palmer offers considerable insight into the historical roots of many contemporary problems: the Kurdish struggle for survival; the sad continuity of conflict in Lebanon; and the centuries-old Muslim presence in Sarajevo. He also recounts the Ottoman Empire's lingering interests in their oil-rich Libyan provinces. By exploring that legacy over the past three centuries, *The Decline and Fall of the Ottoman Empire* examines a past whose effect on the present may go a long way toward explaining the future. Praise for *The Decline and Fall of the Ottoman Empire* Alan Palmer writes the sort of history that doesn't did before accessible became an academic insult. It is cool, rational, scholarly, literate. John Keegan, *A* scholarly, readable and balanced history. *The Independent* on Sunday. A marvellously readable book based on massive research. Robert Blake. **Hitler's Volkssturm** David K. Yelton, 2002-10-29 Pressed by advancing enemy armies on both fronts, Adolf Hitler played his final card in World War II by mobilizing all German civilian males between sixteen and sixty and indoctrinating them for a final apocalyptic defense of the Reich. The Volkssturm created as much to boost national morale as to bolster sagging defenses has been viewed as a negligible factor in the war. David Yelton counters that view with new insights into why the German high command sought this means to prolong an unwinnable war and why so many civilians chose to fight to the bitter end. Hitler's Volkssturm is the only book in English and the most comprehensive in any language on the German militia, illuminating its role and contributions to the Nazi war effort and shedding new light on the last days of the Third Reich. It examines the militia's strategic purpose, organization, training and combat performance on both war fronts and explores factors contributing to its sporadic tactical successes and its overall failure. Yelton reveals why the Nazi leadership chose to assemble such last-ditch units rather than negotiating for

peace and also why civilians in these units were more than willing to serve The Volkssturm was in fact part of a broader ideologically based strategy intended to turn the tide of the war Yelton tracks the impact of this ideology on Nazi decision making throughout the war's final year and illustrates how ideological assumptions were often a major reason for the failure of Nazi policies and strategies In an unprecedented examination of the Volkssturm at the local level Yelton also shows the negative impact of national power struggles and demonstrates how the Wehrmacht industry and public opinion exerted influence on the militia in ways often contrary to its official objectives His extensive and insightful analysis illuminates German mobilization priorities reveals that a substantial number of its commanders had experience in both the military and the Nazi Party and clarifies the impact of Volkssturm mobilizations on the overall German war economy Pathbreaking in both scope and depth Hitler's Volkssturm stresses the factional lines and conflicting centers of power within the Nazi bureaucracy clarifies policy formulation and implementation in the late Third Reich and assesses the shifting power relationships among various groups and individuals Ultimately it gives us a more complete portrait of the Third Reich during the final phase of a devastating war and conveys important lessons about the use of militia forces in modern warfare Catalogue of the Extensive and Valuable Library of His Royal Highness, the Duke of York, Deceased ... Sotheby & Co. (London, England), 1827

Professional Journal of the United States Army, 1939-06 The Publishers' Circular and Booksellers' Record of British and Foreign Literature, 1892 Publishers' Circular and General Record of British and Foreign Literature, and Booksellers' Record, 1898 **Arsenal of Democracy** Gavin J Bailey, 2016-06-30 Through a series of case studies Gavin J

Bailey reveals new details of how Britain used American aircraft and integrates this with broader British statecraft and strategy He challenges conceptions that Britain was strategically reliant on the US and re **Doctrine and Reform in the British Cavalry 1880-1918** Stephen Badsey, 2016-12-05 A prevalent view among historians is that both horsed cavalry and the cavalry charge became obviously obsolete in the second half of the nineteenth century in the face of increased infantry and artillery firepower and that officers of the cavalry clung to both for reasons of prestige and stupidity It is this view commonly held but rarely supported by sustained research that this book challenges It shows that the achievements of British and Empire cavalry in the First World War although controversial are sufficient to contradict the argument that belief in the cavalry was evidence of military incompetence It offers a case study of how in reality a practical military doctrine for the cavalry was developed and modified over several decades influenced by wider defence plans and spending by the experience of combat by Army politics and by the rivalries of senior officers Debate as to how the cavalry was to adjust its tactics in the face of increased infantry and artillery firepower began in the mid nineteenth century when the increasing size of armies meant a greater need for mobile troops The cavalry problem was how to deal with a gap in the evolution of warfare between the mass armies of the later nineteenth century and the motorised firepower of the mid twentieth century an issue that is closely connected with the origins of the deadlock on the Western Front Tracing this debate this book shows how

despite serious attempts to learn from history both European style wars and colonial wars produced ambiguous or disputed evidence as to the future of cavalry and doctrine was largely a matter of what appeared practical at the time **The Sources of Social Power: Volume 4, Globalizations, 1945-2011** Michael Mann, 2012-12-28 Distinguishing four sources of power ideological economic military and political this series traces their interrelations throughout human history This fourth volume covers the period from 1945 to the present focusing on the three major pillars of post war global order capitalism the nation state system and the sole remaining empire of the world the United States In the course of this period capitalism nation states and empires interacted with one another and were transformed Mann s key argument is that globalization is not just a single process because there are globalizations of all four sources of social power each of which has a different rhythm of development Topics include the rise and beginnings of decline of the American Empire the fall or transformation of communism respectively the Soviet Union and China the shift from neo Keynesianism to neoliberalism and the three great crises emerging in this period nuclear weapons the great recession and climate change **British Books**, 1898
