Nandakumar, 1996-01-01 **World Trade Organization** A. M. Babkina, 2000 If ever there existed a benign sounding organisation it is surely the World Trade Organisation The WTO is the successor to GATT According to the WTO itself its mission is dealing with the rules of trade between nations At its heart are the WTO agreements the legal ground rules for international commerce and for trade policy The agreements have three main objectives to help trade flow as freely as possible to achieve further liberalisation gradually through negotiation and to set up an impartial means of settling disputes This book seeks to illuminate some key issues related to the WTO as well as present a detailed bibliography for future reference **Cinnamon and Cassia** P. N. Ravindran, K Nirmal-Babu, M Shylaja, 2003-12-29 Cinnamon and Cassia the Spices of Life together constitute one of the most widely used group of spices A comprehensive volume Cinnamon and Cassia Genus Cinnamomum explores in detail Srilankan cinnamon Chinese cassia Indonesian cassia Indian cassia camphor and also the important related and useful spices of Cinnamomum The introduction **Performance and Prospects for Caribbean Agriculture , Agricultural Policies in Emerging and Transition Economies 2001** **Special focus on non-tariff measures** OECD, 2001-08-27 This publication includes country by country analysis of agricultural policies and support as well as statistics on support *Agriculture and the New Trade Agenda* Merlinda D. Ingco, L. Alan Winters, 2004-03-25 Negotiating the liberalization of world agricultural trade in the World Trade Organization WTO is fraught with difficulty due to the complexity of the issues and the wide range of interests across countries In the round of global trade negotiations under the WTO different perspectives on trade reform have produced a highly contentious agenda These issues are addressed from a range of perspectives in this survey of the trade agenda and its implications for both developing and developed countries Agricultural trade specialists including those in universities in international organizations and think tanks analyse a comprehensive range of topics including interests and options in the WTO trade negotiations the trade agenda from a development perspective WTO trade rules trade barriers tariff negotiations and patent protection for developing countries **Enhancing and Capturing More Value from the Caribbean Community's Value Chains** Don Charles, 2019-02-21 The organization of production processes into a chain of production stages that could be located in different countries each of which provide a unique advantage has become a defining characteristic of international trade Industrial development the movement of intermediate products and the trading of final goods and services are inextricably linked to global value chains Global value chain analysis is useful in providing a comprehensive overview of an entire industry identifying an individual firm or country's position in the global value chain and mapping how the firm or country may upgrade to capture more value along this value chain This book presents various case studies which analyse some of the prevalent constraints experienced in industries of the Caribbean Community CARICOM member states In

addition it identifies practical policy recommendations which can be used to address such challenges and allow the member states to capture more value from their industries global value chains It addresses issues such as the declining preferences in agriculture value chains the feasibility of enhancing the economic contribution of the maritime industry the urgency for climate resilient strategies in the banana industry and the need for local content policy to create an appropriate framework to capture a fair share of value from the hydrocarbon industry Given the persistence of challenges the lack of upgrading and the dearth of research conducted on value chains in the CARICOM region this book can serve as a basis upon which governments and regional organizations may adopt policy recommendations to address trade and investment related challenges and increase the member states effective participation in international trade
