The God Society:

Society and the Death of God Sal Restivo, 2021-06-08 This book advances the strong programme that sociology and anthropology provide a scientific foundation for arguing that God and the gods are human creations. Contending that religion is one but not the only way to systematize and institutionalize the moral order of a society, the author argues that religion reflects the fundamental human need for belonging and the social function of compassion. As such, our transcendental and supernatural ideas are really concerned with our everyday lives in communities and faced with the severity and immediacy of the global problems with which the world is confronted, existential threats, it is increasingly important to abandon delusions and correct our mistake in reference not by eradicating religion but by grounding it more explicitly in earthly matters of community, social solidarity, belonging and compassion. A wide-ranging study of the roots, nature and purpose of religion and theistic belief, *Society and the Death of God* will appeal to sociologists, social theorists and philosophers with interests in the scientific study of religion and the role of religion in the life of humankind. [Spirituality for Our Global Community](#) Daniel

A. Helminiak, 2008-02-08 In this groundbreaking book, Daniel Helminiak provides a crucial spiritual option, a middle path between modern society's secular materialism and traditional religion's otherworldly focus and institutional dogmatism. The functional atheism of our contemporary consumer and scientific society, as championed by current best-selling authors Sam Harris, *The End of Faith*, Richard Dawkins, *The God Delusion*, and Christopher Hitchens, *God is Not Great*, doesn't satisfy our desire for lasting meaning and value. But the parochial, inflexible character of traditional religious beliefs increasingly results in personal, local and global conflicts in our current world of pluralism, globalization, respect for science and progress. Helminiak gives us a compelling vision of a global spirituality that downplays beliefs and emphasizes the essential spiritual dynamics of the common human quest for wholeness, goodness, freedom and community. *Spirituality for a Global Community* builds on the spiritual facet of our common humanity, stressing wholesome living on planet Earth and opening onto the range of religions and belief in God. *Publications of the Folk-lore Society*, 1913 **Knowledge of the Gods** A. Muhammad, 2015-04-28 In the Name of Allah the Beneficent, the Merciful, We bear witness that Muhammad of 1400 years ago PBUH is Allah's last Prophet. Peace, Peace, I am Field Supreme Minister Ali Mahdi Muhammad, Spiritual Leader of the New World Nation of Islam. The Field Supreme Staff was commissioned Saviour's Day, February 26, 1960. That was the same day that our Father, the Most Honorable Elijah Muhammad, told tens of thousands of His followers and announced to the world that He, Elijah, was Allah, God. He, Elijah, said, "I have been made equal in knowledge with Allah. I control the winds and the seas. I have power over the sun, moon and stars. I have waited 379 years for this day." The Commissioning of the Field Supreme Staff was witnessed by twenty of the Nation of Islam's Ministers at the Minister's Meeting that day, Saviour's Day, 1960. When Elijah, My God, Your Messenger, said, "He is equal to Allah," many people walked out of the auditorium. But we, the Field Staff, believed every word he said. He began to teach us the secrets of God being among us and what we must do to build the

House of Our Father s Desires 1 Chronicles 28 5 15 We the New World Nation of Islam are the original followers of the Honorable Elijah Muhammad We are that infant nation a nation within a nation born to build a New World The History in this book is the True and Untold Story of the Nation of Islam by the people who actually lived it **Intentional Community** Susan Love Brown,2001-12-20 Although anthropologists have studied intentional communities in the past they have seldom exerted a concerted effort to evaluate the intentional community in terms of the anthropological language of cultural change Drawing from the work of Victor Turner Gregory Bateson and Anthony F C Wallace Intentional Community examines historic and contemporary intentional communities within the United States leading to a better understanding of these communities the larger nation state of which they are a part and the ways in which the two interact Applying classical anthropological theory to elements of western society the contributors discuss how the individuals function the ways in which these communities come into being and disappear the various forms these communities take how their members reinterpret features of the larger culture and the ways in which outsiders relate to people within them **The Community of the Spirit** C. Norman Kraus,2008-03-01 A revised edition of this classic work by C Norman Kraus Key material from another influential book The Authentic Witness is incorporated and a new chapter is added Repeatedly Kraus stresses the key point the good news of the gospel is not that all will be well in the future The good news is that the Spirit of God is among us now He asks the church to become a dynamic God Movement by opening itself to this now present Spirit God's Church-Community David Emerton,2020-07-09 David Emerton argues that Dietrich Bonhoeffer s ecclesial thought breaks open a necessary third way in ecclesiological description between the Scylla of ethnographic ecclesiology and the Charybdis of dogmatic ecclesiology Building on a rigorous and provocative discussion of Bonhoeffer s thought Emerton establishes a programmatic theological grammar for any speech about the church Emerton argues that Bonhoeffer understands the church as a pneumatological and eschatological community in space and time and that his understanding is built on eschatological and pneumatological foundations These foundations in turn give rise to a unique methodological approach to ecclesiological description an approach that enables Bonhoeffer to proffer a genuinely theological account of the church in which both divine and human agency are held together through an account of God the Holy Spirit Emerton proposes that this approach is the perfect remedy for an endemic problem in contemporary accounts of the church that of attending either to the human empirical church community ethnographically or to the life of God dogmatically and to each problematically at the expense of the other This book will act as a clarion call towards genuinely theological ecclesiological speech which is allied to real ecclesial action *The Institutes of Biblical Law Vol. 1* R. J. Rushdoony,2009-11-16 To attempt to study Scripture without studying its law is to deny it To attempt to understand Western civilization apart from the impact of Biblical law within it and upon it is to seek a fictitious history and to reject twenty centuries and their progress The Institutes of Biblical Law has as its purpose a reversal of the present trend it is called Institutes in the older meaning of the that word i e fundamental principles

here of law because it is intended as a beginning as an instituting consideration of that law which must govern society and which shall govern society under God To understand Biblical law it is necessary to understand also certain basic characteristics of that law In it certain broad premises or principles are declared These are declarations of basic law The Ten Commandments give us such declarations A second characteristics of Biblical law is that the major portion of the law is case law i e the illustration of the basic principle in terms of specific cases These specific cases are often illustrations of the extent of the application of the law that is by citing a minimal type of case the necessary jurisdictions of the law are revealed The law then asserts principles and cites cases to develop the implications of those principles with is purpose and direction the restitution of God s order

The Philosophy of Religion Beverley Clack, Brian R. Clack, 2019-05-29 For over twenty years Beverley Clack and Brian R Clack s distinctive and thought provoking introduction to the philosophy of religion has been of enormous value to students and scholars providing an approach to the subject that is bold and refreshingly alternative This revised and updated edition retains the accessibility which makes the book popular while furthering its distinctive argument regarding the human dimension of religion The central emphasis of the philosophy of religion the concept of God and the arguments for and against God s existence is reflected in thorough analyses while alternative approaches to traditional philosophical theism are explored The treatments of both the miraculous and immortality have been revised and expanded and the concluding chapter updates the investigation of how philosophy of religion might be conducted in an age defined by religious terrorism Clear systematic and highly critical the third edition of The Philosophy of Religion will continue to be essential reading for students and scholars of this fascinating and important subject
