

The background of the cover is a painting of a lone acacia tree on a rocky outcrop overlooking the ocean at sunset. The tree is tall and slender with a wide, flat canopy. The sky is a warm, golden yellow, and the ocean is visible in the distance. The overall mood is serene and contemplative.

in *Magic and Religion* in its second edition is a wide ranging comparative study of mythology and religion written by the Scottish anthropologist Sir James George Frazer. *The Golden Bough* was first published in two volumes in 1890 in three volumes in 1900 and in twelve volumes in the third edition published 1906. 15 THE PRIMARY aim of this book is to explain the remarkable rule which regulated the succession to the priesthood of Diana at Aricia. When I first set myself to solve the problem more than thirty years ago I thought that the solution could be propounded very briefly but I soon found that to render it probable or even intelligible it was necessary to discuss certain more general questions some of which had hardly been broached before. In successive editions the discussion of these and kindred topics has occupied more and more space the enquiry has branched out in more and more directions until the two volumes of the original work have expanded into twelve. Meantime a wish has often been expressed that the book should be issued in a more compendious form. This abridgment is an attempt to meet the wish and thereby to bring the work within the range of a wider circle of readers. While the bulk of the book has been greatly reduced I have endeavoured to retain its leading principles together with an amount of evidence sufficient to illustrate them clearly. The language of the original has also for the most part been preserved though here and there the exposition has been somewhat condensed. In order to keep as much of the text as possible I have sacrificed all the notes and with them all exact references to my authorities. Readers who desire to ascertain the source of any particular statement must therefore consult the larger work which is fully documented and provided with a complete bibliography.

The Illustrated Golden Bough Sir James George Frazer, Robert K. G. Temple, 1996. A modern abridgement of Sir James Frazer's 1925 one volume version of his longer multi volume work on the study of magic and origins of religion from an anthropological viewpoint.

The Golden Bough J.G. Frazer, 2016-02-19. Sir James George Frazer originally set out to discover the origins of one ancient custom in Classical Rome the plucking of the Golden Bough from a tree in the sacred grove of Diana and the murderous succession of the priesthood there and was led by his investigations into a twenty five year study of primitive customs superstitions magic and myth throughout the world. The monumental thirteen volume work which resulted has been a rich source of anthropological material and a literary masterpiece for more than half a century. Both the wealth of his illustrative material and the broad sweep of his argument can be appreciated in this very readable single volume.

The Golden Bough James George Frazer, 1913. Frazer's series which attempted to define the shared elements of religious belief and scientific thought discussing fertility rites human sacrifice the dying god the scapegoat and many other symbols and practices whose influences had extended into 20th century culture. His thesis is that old religions were fertility cults that revolved around the worship and periodic sacrifice of a sacred king. Frazer proposed that mankind progresses from magic through religious belief to scientific thought.
