The Invention Of Middle English:

The Invention of Middle English David Matthews, 2000 At a time when medieval studies is increasingly concerned with historicizing and theorizing its own origins and history the development of the study of Middle English has been relatively neglected *The Invention of Middle English* collects for the first time the principal sources through which this history can be traced The documents presented here highlight the uncertain and haphazard way in which ideas about Middle English language and literature were shaped by antiquarians in the eighteenth and nineteenth centuries It is a valuable sourcebook for medieval studies for study of the reception of the Middle Ages and more generally for the history of the rise of English The anthology is divided into two sections The first section traces the development of ideas about the Middle English language in the work of thirteen writers including George Hickes Thomas Warton Jacob Grimm Henry Sweet and James Murray The second section represents literary criticism and commentary by nineteen authors including Warton Thomas Percy Joseph Ritson Walter Scott Thomas Wright and Walter Skeat Each of the extracts is annotated and introduced with a note presenting historical biographical and bibliographical information along with a guide to further reading A general introduction provides an overview of the state of Middle English study and a brief history of the formation of the discipline

The Invention of Middle English David Matthews, 2000 *The Making of Middle English, 1765-1910* David Matthews, 1999 Before the 1760s with the major exception of Chaucer nearly all of Middle English literature lay undiscovered and ignored Because established scholars regarded later medieval literature as primitive and barbaric the study of this rich literary heritage was relegated to antiquarians and dilettantes In *The Making of Middle English 1765 1910* David Matthews chronicles the gradual rediscovery of this literature and the formation of Middle English as a scholarly pursuit Matthews details how the careers class positions and ambitions of only a few men gave shape and direction to the discipline Mostly from the lower middle class they worked in the church or in law and hoped to exploit medieval literature for financial success and social advancement Where Middle English was concerned Matthews notes these scholars were self taught and their amateurism came at the price of inaccurately edited and often deliberately improved texts intended for a general public that sought appealing rather than authentic reading material This study emphasizes the material history of the discipline examining individual books and analyzing introductions notes glossaries promotional materials lists of subscribers and owners annotations to assess the changing methodological approaches of the scholars and the shifts in readership Matthews explores the influence of aristocratic patronage and the societies formed to further the editing and publication of texts And he examines the ideological uses of Middle English and the often contentious debates between these scholars and organizations about the definition of Englishness itself A thorough work of scholarship *The Making of Middle English* presents for the first time a detailed account of the formative phase of Middle English studies and provides new perspectives on the emergence of medieval studies canon formation the politics of editing and the history of the book **Middle English**

A Companion to Middle English Hagiography Sarah Salih, 2006 The saints were the superheroes and the celebrities of medieval England bridging the gap between heaven and earth the living and the dead A vast body of literature evolved during the middle ages to ensure that everyone from kings to peasants knew the stories of the lives deaths and afterlives of the saints However despite its popularity and ubiquity the genre of the Saint s Life has until recently been little studied This collection introduces the canon of Middle English hagiography places it in the context of the cults of saints analyses key themes within hagiographic narrative including gender power violence and history and finally shows how hagiographic themes survived the Reformation Overall it offers both information for those coming to the genre for the first time and points forward to new trends in research Dr SARAH SALIH is a Lecturer in English at the University of East Anglia Contributors SAMANTHA RICHES MARY BETH LONG CLAIRE M WATERS ROBERT MILLS ANKE BERNAU KATHERINE J LEWIS MATTHEW WOODCOCK

The Making of Felony Procedure in Middle English Literature Elise Wang, 2024-07-12 The Making of Felony Procedure in Middle English Literature explores the literary inheritance of criminal procedure in thirteenth to fifteenth century English law focusing on felony the gravest common law offense Most scholarship in medieval law and literature has focused on statute and theory drawing from the instantiating texts of English law acts of Parliament judicial treatises the Magna Carta But those whose job it was to write about the law rarely wrote about felony Its definition was left to its practice from investigation to conviction and that procedure fell to local communities who were generally untrained in the law Left with many practical and ethical questions and few legal answers they turned to cultural ones archived in sermons they had heard plays they had seen and poetry they knew This book reads the documents of criminal procedure coroners reports plea rolls and gaol delivery records alongside literary scenes of investigation interrogation and witnessing to tell a new intellectual history of criminal procedure s beginnings The chapters of The Making of Felony Procedure guide the reader through the steps of a felony prosecution from act to conviction examining the questions local communities faced at each step What evidence should be prioritized in a death investigation Should the accused consider narrative satisfaction

when building his plea What are the dangers of a witnessing system that depends so heavily on a few oathworthy men What can a jury do if the accused's guilt seems partial or complex And what if the defendant for whatever reason refuses to participate in this new still delicate system of justice The book argues that answers they found and the sources that informed them created the system that became modern criminal procedure The epilogue offers some thoughts about the resilience and incoherence of the concept of felony from the start of the jury trial to the present day

What Kind of a Thing Is a Middle English Lyric? Cristina Maria Cervone, Nicholas Watson, 2022-08-30 What Kind of a Thing Is a Middle English Lyric considers issues pertaining to a corpus of several hundred short poems written in Middle English between the twelfth and early fifteenth centuries The chapters draw on perspectives from varied disciplines including literary criticism musicology art history and cognitive science Since the early 1900s the poems have been categorized as lyrics the term now used for most kinds of short poetry yet neither the difficulties nor the promise of this treatment have received enough attention In one way the book argues considering these poems to be lyrics obscures much of what is interesting about them Since the nineteenth century lyrics have been thought of as subjective and best read without reference to cultural context yet nonetheless they are taken to form a distinct literary tradition Since Middle English short poems are often communal and usually spoken sung and or danced this lyric template is not a good fit In another way however the very differences between these poems and the later ones on which current debates about the lyric still focus suggest they have much to offer those debates and vice versa As its title suggests this book thus goes back to the basics asking fundamental questions about what these poems are how they function formally and culturally how they are and are not related to other bodies of short poetry and how they might illuminate and be illuminated by contemporary lyric scholarship Eleven chapters by medievalists and two responses by modernists all in careful conversation with one another reflect on these questions and suggest very different answers The editors introduction synthesizes these answers by suggesting that these poems can most usefully be read as a kind of play in several senses of that word The book ends with eight new Middle English lyrics by seven contemporary poets

A Companion to Middle English Prose Anthony Stockwell Garfield Edwards, 2004 The essays in this volume provide an up to date and authoritative guide to the major prose Middle English authors and genres Each chapter is written by a leading authority on the subject and offers a succinct account of all relevant literary history and cultural factors that need to be considered together with bibliographical references Authors examined include the writers of the Ancrene Wisse the Katherine Group and the Wouhunge Group Richard Rolle Walter Hilton Nicholas Love Julian of Norwich Margery Kempe Sir John Mandeville John Trevisa Reginald Pecock and John Fortescue Genres discussed include romances saints lives letters sermon literature historical prose anonymous devotional writings Wycliffite prose and various forms of technical writing The final chapter examines the treatment of Middle English prose in the first age of print Contributors BELLA MILLETT RALPH HANNA III AD PUTTER KANTI K GHOSH BARRY A WINDEATT A C SPEARING IAN HIGGINS A S G EDWARDS VINCENT
