The Invisible Enemy:

The invisible enemy, 1977 **The Invisible Enemy II** Anthony R. Howard, 2010-04

America is on the brink of a post nuclear war. Recent events have catapulted the American military into a state of emergency and American enemies are planning their assault. It started when a reporter discovered the horrific truth regarding the Strategic Offensive Reduction Treaty, a critical peace agreement between the former Soviet Union and the United States. Russia is cheating and even worse, they hold the ultimate trump card: the one secret that can bring down the world's super power. To exploit this haunting secret, Russia has constructed the most dangerous network of secret operatives ever known. Brutally trained from birth to act and think like Americans, this dynamic organization has been planted on American soil long ago by the former KGB to retrieve information at any cost: cause political catastrophe or kill on moment's notice. Now they are out of control, striking fear into the heart of the Pentagon. In response to a devastating political assassination, the CIA has assembled a powerful team of agents that do not exist in an attempt to terminate an enemy that cannot be caught by any traditional methods. The fate of the free world is in their hands. These CIA agents are the last link between liberty and a nuclear holocaust. This exhilarating sequel casts the reader further into the furious depths of the intense vendetta and unpredictable deceit where there is a frightful undercover agenda that even the operatives themselves are not aware of and an ominous shadow enemy is introduced. The reader is paralyzed with anticipation as the deadly rivalry somersaults out of control after the enemy operatives realize they have been set up by the system of honor they lived by. Here the game changes and no one has told them the rules. Betrayed by their own country and thrown into a world they can not trust, they are forced to depend on the most potent weapon they had ever been trained to use: their unnatural minds. In a fast paced sequel that spins from one explosive scene to the next, the most high tech weaponry is used including speed of light weapons, smart chips, artificial intelligence and never before exposed government technology and organizations, thus introducing a new, exciting, untapped level of spycraft where nothing is what it seems. Anthony R. Howard has been an industry recognized consultant for the premier global technology firms for over 12 years. Presently, he is a leading Advanced Systems Consultant for one of the world's largest Information Technology firms where he was the winner of the National Federal Office Systems Award, FOSE Nation's Largest Information Technology Exposition, Serving the Government Marketplace and the 2004 winner of Government Computer News Best New Technology Award. Several case studies have been published on Howard's solutions across the Information Technology industry. Currently, he provides enterprise technology solutions and advisement for America's most distinguished clients, including a sizeable amount of work for the U.S. Defense Sector, Department of Justice and the Department of Homeland Security. After founding his own technology firm, Howard completed his formal education with a Masters of Business Administration with a concentration in Information Technology.
