THE LINDSEYS - KANSAS PIONEERS 1855 - 2024 Marvin L,Steven E Lindsey,2024-03-03 This book was written largely for the benefit of the writers children and grandchildren so they would know something of the life and hardships faced by their pioneering ancestors It was inspired by their questions about our childhood and youth and their own memories of many visits to the Kansas farms of their grandparents and great grandparents However we think many other readers will enjoy learning something about what it was like growing up on a midwestern farm in the 1940s and 50s A time that was in many ways much simpler but certainly not easy We had the privilege of knowing personally grandparents and great grandparents who had lived through the many profound changes that occurred around the change of the century Automobiles tractors and telephones had only arrived on the farm about 30 years earlier and the grandparents barns and garages were still filled with horse drawn equipment and harnesses from an earlier era Electricity and graveled roads only occurred after WWII in our memory and running water and indoor bathrooms were still not common on many farms as late as 1955 It was a different and changing world of which we were privileged to be a part Almost all our relatives lived nearby and neighbors all knew us and didn't hesitate to let our parents know if we were up to any mischief We were expected to take responsibility work hard always be truthful stay out of trouble study hard and plant straight rows All are excellent traits that unfortunately are not as valued today as they were then In the book we have shared some history of the area and some stories of incidents from our lives that were not uncommon among farm families We hope readers enjoy learning about us and our families **Lyceum World** ,1916 **When the Old Left Was Young** Robert Cohen,1993-04-29 The Depression era saw the first mass student movement in American history The crusade led in large part by young Communists was both an anti war campaign and a movement championing a broader and more egalitarian vision of the welfare state than that of the New Dealers The movement arose from a massive political awakening on campus caused by the economic crisis of the 1930s the escalating international tensions and threat of world war wrought by fascism At its peak in the late 1930s the movement mobilized at least a half million collegians in annual strikes against war Never before and not again until the 1960s were so many undergraduates mobilized for political protest in the United States The movement lost nearly all its momentum in 1939 when the signing of the Hitler Stalin pact served to discredit the student Communist leaders Adding to the emerging portrait of political life in the 1930s this book is the result of an extraordinary amount of research has fascinating individual stories to tell and offers the first comprehensive history of this student insurgency **The Nation** ,1898
