The Ouroboros Cycle, Book Three: A Long-Awaited Treachery G.D. Falksen, 2015-03-27 For a thousand years the immortal Shashavani have hidden from the world in the halls of their mountain fortress amassing great stores of knowledge in a haven of academic tranquility And while Doctor Varanus has never found tranquility much to her taste even she cannot deny that the peace and quiet make for a pleasant diversion following the chaos of her recent adventures in London Having left the horrors of bloodshed and wellness behind her Varanus has thrown herself headlong into the study of the Shashavani condition determined to learn the secrets of their undying power But all is not as it seems in the House of Shashava As winter snow covers the Shashavani valley and chokes the mountain passes sinister events are unfolding in the shadows Whispers of conspiracy echo through the halls Soon loyalties will be tested and friendships betrayed Blood will flow For upon the frozen steppe an ancient evil stirs and turns its gaze toward the House of Shashava hungering for power and revenge As darkness descends one question remains Do you serve the Winter King

Sub-versions of the Archive Carlos Riobó, 2010-12-29 Sub Versions of the Archive Manuel Puig's and Severo Sarduy's *Alternative Identities* analyzes recent theories of the archive to examine how Manuel Puig and Severo Sarduy reformulate the Latin American literary tradition This study focuses on eclectic theories of the archive as both repository and danger drawing from an array of sources both within and outside the Hispanic literary tradition from Borges Foucault Arrom Derrida Gonz lez Echevarra and Guillory to digital media and biotechnology

This book also applies theories of cultural contamination Maria Lugones and symbolic capital Pierre Bourdieu to the novels of Puig and Sarduy to explore the representation of marginal cultures within a body of literature that previously altered or elided these subaltern cultures from the tradition Through close readings and critical theoretical applications this book demonstrates how archival fiction continues to be one of the most popular strategies among Latin American novelists and most importantly how they have successfully managed to find new ways to inscribe their alternative fictions within this tradition Puig s and Sarduy s novels reproduce discourses popular culture and the mass media that lack prestige within the traditional archive These discourses mirror realities of marginal groups gay people children the poor the illiterate women and racial minorities Their cultural variants sub versions of hegemonic masterstories are endowed with truth bearing power for them but were previously left out of the archive as legitimate novelistic models To date this is the only study of contemporary Latin American fiction that puts current theories of the archive especially that of Roberto Gonz lez Echevarra a to practice in such a systematic way Riob s analysis of how Puig and Sarduy reformulate the Latin American canon is both a necessary complement of Gonz lez Echevarra s work and an intelligent answer to the first of his projected masterstories Riob s multidisciplinary approach
