

# Medium Trumpet Narcissus,

Medium Trumpet Narcissus are among the most useful of all the Daffodil family for cutting, for bouquets, corsage and decorative purposes. The flowers are very large, averaging from 3 to 5 inches across with only medium-sized trumpet, etc., and on that account are preferred for many for their white and graceful form. They are all perfectly hardy and of equal value for open ground planting, flowering in the spring, or for growing in the house for winter flowers.

Andrew Marvell Chronology N. Maltzahn, 2005-08-02 This work provides a comprehensive account of the life and writings of Andrew Marvell 1621-78 as well as the reception of his work in the century after his death. A much loved poet, a compelling controversialist and once famous as a member of Parliament, Marvell's intersecting careers are here explored in detail. His biography is transformed with wide reference to print and manuscript sources, many of which are described for the first time in this useful resource for any student, historian, literary scholar or general reader interested in the life and works of this great writer.

**Censorship and Conflict in Seventeenth-Century England** Randy Robertson, 2015-10-20 Censorship profoundly affected early modern writing. Censorship and Conflict in Seventeenth-Century England offers a detailed picture of early modern censorship and investigates the pressures that censorship exerted on seventeenth-century authors, printers and publishers. In the 1600s Britain witnessed a civil war, the judicial execution of a king, the restoration of his son and an unrelenting struggle among crown, parliament and people for sovereignty and the right to define liberty and property. This battle, sometimes subtle, sometimes bloody, entailed a struggle for the control of language and representation. Robertson offers a richly detailed study of this censorship contest and of the craft that writers employed to outflank the licensors. He argues that for most parties victory, not diplomacy or consensus, was the ultimate goal. This book differs from most recent works in analyzing both the mechanics of early modern censorship and the poetics that the licensing system produced: the forms and pressures of self-censorship. Among the issues that Robertson addresses in this book are the workings of the licensing machinery, the designs of art and obliquity under a regime of censorship and the involutions of authorship attendant on anonymity.
