Scenes from a Courtesan's Life Honoré de Balzac, 2020-09-28 *Scenes from a Courtesan's Life ; The Government Clerks* Honoré de Balzac, 1901 *The Renaissance courtesan in words, letters and images* Eugenio Giusti, 2014-11-12T16:00:00+01:00

Although throughout history women had been confined to enclosed spaces, the advent of courtly life and culture required that men and women would share and interact in public arenas like the princely courts, intellectual salons or gambling houses. But also in all of these public spaces, behavioral rules and regulations aimed to control women's body by equating honesty with chastity. In this monograph, I analyze how in the XVI, XVII, and XVIII centuries women in general and in particular prostitutes and courtesans repeatedly challenged those rules in the attempt to affirm their individual freedom. I call this behavior social amphibology, as just like amphibians, these women were able to cross class boundaries and thrive in different social environments. My analysis has three complementary approaches. First, an historical approach where census documents and sumptuary laws are investigated in order to describe the ways in which the political establishment unsuccessfully attempts to enforce its rules over women's behavior. Second, a literary approach where works by Castiglione, Aretino, Bandello, and Veronica Franco are analyzed in order to emphasize the terminological proximity between the legal and the literary languages and the evolution of the term courtesan with its attribute honest. A third visual approach looks at prints of women's clothing made by XVI and XVII century artists. The iconographic similarity of all of the images requires a set of rubrics or labels as a way to control such visual amphibology. In the last segment of this monograph, I apply a diachronic perspective to these visual representations as I show how contemporary art historians use the same means of categorization used in previous centuries to identify, without any definite proof, paintings and prints included in two recent art exhibitions.

Scenes from a Courtesan's Life Honoré de Balzac, 1900 Courtesans, Concubines, and the Cult of Female Fidelity Beverly Bossler, 2020-10-26

This book traces changing gender relations in China from the tenth to fourteenth centuries by examining three critical categories of women: courtesans, concubines, and faithful wives. It shows how the intersection and mutual influence of these groups and of male discourses about them transformed ideas about family relations and the proper roles of men and women. Courtesan culture had a profound effect on Song social and family life as entertainment skills became a defining feature of a new model of concubinage and as entertainer concubines increasingly

became mothers of literati sons Neo Confucianism the new moral learning of the Song was significantly shaped by this entertainment culture and by the new markets in women that it created Responding to a broad social consensus Neo Confucians called for enhanced recognition of concubine mothers in ritual and expressed increasing concern about wifely jealousy The book also details the surprising origins of the Late Imperial cult of fidelity showing that from inception the drive to celebrate female loyalty was rooted in a complex amalgam of political social and moral agendas By taking women and men's relationships with women seriously this book makes a case for the centrality of gender relations in the social political and intellectual life of the Song and Yuan dynasties **Refrain: Blood Courtesans - Neriza: A Vampire Blood Courtesan**
