

# Capital Expenditures vs. Operating Expenses

| Basis for Comparison           | CapEx   | OpEx  |
|--------------------------------|---|---|
| Definition                     | Costs involving the purchasing and upgrading of fixed assets  | Costs supporting the current business operations  |
| What It Reveals                | Reflects how much a corporation is investing in its future  | Reflects the day-to-day expenses of running a business  |
| Examples                       | Purchases of property and equipment   | Rent and utility costs  |
|                                | Building improvement costs  | Vehicle maintenance   |
|                                | Trademarks, patents, copyrights   | Wages and salaries  |
| Accounting in Income Statement | CapEx is capitalized, amortized, or depreciated over its lifespan according to its nature. Intangible assets such as trademarks are amortized, whereas tangible assets are depreciated. | Operating expenses are recorded in full during the period on which they were incurred.          |
| Income Tax                     | CapEx is not preferred since all of the money paid upfront cannot be deducted.  | OpEx is generally preferred since they are allowed the full deduction, lowering taxable income. |
