The Modern Superhero in Film and Television Jeffrey A. Brown, 2016-11-10 Hollywood's live action superhero films currently dominate the worldwide box office with the characters enjoying more notoriety through their feature film and television depictions than they have ever before. This book argues that this immense popularity reveals deep cultural concerns about politics, gender, ethnicity, patriotism, and consumerism after the events of 9/11. Superheroes have long been agents of hegemony, fighting for abstract ideals of justice while overall perpetuating the American status quo. Yet at the same time, the book explores how the genre has also been utilized to question and critique these dominant cultural assumptions.

Popular Spiritualities Lynne Hume, 2018-05-08 In our contemporary post-modern world, popular forms of spirituality are increasingly engaging with notions of re-enchantment of self and community. Not only are narratives of re-enchantment appearing in popular culture at the personal and spiritual level, but also they are often accompanied by a pragmatic approach that calls for political activism and the desire to change the world to incorporate these new ideas. Drawing on case studies of particular groups including pagans, witches, radical faeries, post-modern tourists, and queer and goddess groups, contributors from Australia, the UK, and North America discuss various forms of spirituality and how they contribute to self-knowledge, identity, and community life. The book documents an emerging engagement between new quasi-religious groups and political action, eco-paganism, post-colonial youth culture, and alternative health movements to explore how social change emerges.

The Routledge Companion to Gender and Sexuality in Comic Book Studies Frederick Luis Aldama, 2020-08-17 *The Routledge Companion to Gender and Sexuality in Comic Book Studies* is a comprehensive global and interdisciplinary examination of the essential relationship between Gender, Sexuality, Comics, and Graphic Novels. A diverse range of international and interdisciplinary scholars take a closer look at how gender and sexuality have been essential in the evolution of comics and how gender and sexuality in comics demand that we re-frame and re-view comics history. Chapters cover a wide array of intersectional topics including Queer Underground and Alternative comics, Feminist Autobiography, re-drawing disability, Latina testimony, and re-evaluating the critical whiteness and masculinity of superheroes. In this first truly global reference text to gender and sexuality in comics, Comics have always been an important place for the radical exploration of feminist and non-binary sexualities and identities, and the growth of non-normative comic book traditions as a field of inquiry makes this an essential text for upper-level undergraduates, postgraduates, and researchers studying Comics Studies, Women's and Gender Studies, Literary Studies, and Cultural Studies.

Storytelling Sean Guynes, Dan Hassler-Forest, 2025-10-01 Star Wars has reached more than three generations of casual and hardcore fans alike and as a result many of the producers of franchised Star Wars texts films television comics novels games and more over the past four decades have been fans turned creators Yet despite its dominant cultural and industrial positions Star Wars has rarely been the topic of sustained critical work Star Wars and the History of Transmedia Storytelling offers a corrective to this oversight by curating essays from a wide range of interdisciplinary scholars in order to bring Star Wars and its transmedia narratives more fully into the fold of media and cultural studies The collection places Star Wars at the center of those studies projects by examining video games novels and novelizations comics advertising practices television shows franchising models aesthetic and economic decisions fandom and cultural responses and other aspects of Star Wars and its world building in their multiple contexts of production distribution and reception In emphasizing that Star Wars is both a media franchise and a transmedia storyworld Star Wars and the History of Transmedia Storytelling demonstrates the ways in which transmedia storytelling and the industrial logic of media franchising have developed in concert over the past four decades as multinational corporations have become the central means for subsidizing profiting from and selling modes of immersive storyworlds to global audiences By taking this dual approach the book focuses on the interconnected nature of corporate production fan consumption and transmedia world building As such this collection grapples with the historical cultural aesthetic and political economic implications of the relationship between media franchising and transmedia

storytelling as they are seen at work in the world's most profitable transmedia franchise **Discourses That Matter** Maria José Canelo, 2013-10-03 How can English and American Studies be instrumental to conceptualizing the deep instability we are presently facing How can they address the coordinates of this instability such as war terrorism the current economic and financial crisis and the consequent myriad forms of deprivation and fear How can they tackle the strategies of dehumanization invisibility and the naturalization of inequality and injustice entailed in contemporary discourses This anthology grew out of an awareness of the need to debate the role of English and American Studies both in the present context and in relation to the so called demise of the Humanities Drawing on Judith Butler's rethinking of materiality as the effect of power in her study *Bodies That Matter* 1993 we locate this collection of essays at the crossroads of discourse and power while we

expect the work collected here to highlight the ability of discourses to materialize in or as truth and as such to support or decry particular constituencies Discourses therefore matter to us as products and vehicles of power relations that can be subject to the analytical and interpretative tools of English and American Studies Our idea was to challenge especially young scholars to position their research concerning the ability of their fields to be discourses that matter in the case in point to be critical practices that make an active intervention in current debates By focusing on matters such as language as witness to the world representations of gender race and ethnicity performative discourses exceptionalism and power and interculturality these essays pursue the chance to deepen enlarge and question both literary and cultural phenomena their established critical readings and the strategies deployed in representations Finally English and American Studies in the present collection demonstrate their affiliation to the Humanities by exploring the numerous possibilities offered by their discourses their ability to foster critical thought allowing us to think for and outside ourselves their capacity to test argue and question and their profound imaginative potential
