Super Kids and Their Parents Robert Leland Johnson, *The Superkids Activity Guide to Conquering Every Day* Dayna Abraham, 2017-08-15 Help Your Kids Stay Calm, Be Happy and Make Every Day Amazing. Do kids' behaviors leave you confused and frustrated? Dayna Abraham is teaching the world there's a better way. She too was baffled by her son's behaviors until she realized the power of using science and child development to see him for the superkid he already was. In this revolutionary book, Dayna bridges the gap between kids and the adults who love them by empowering kids to be their own problem solvers and helping adults understand what kids really need to succeed. As a teacher, writer and mother, she explains that undesirable behaviors are really a cry for help. Kids have a need but lack the tools and skills to express it. In this book, she gives kids fun projects and tools that boost their ability to control their behaviors, explain how they're feeling and gain confidence. Each of the 75 unique, sensory-rich projects in *The Superkids Activity Guide to Conquering Every Day* will help kids navigate the most challenging times of day. Whether they struggle to get out the door in the morning or hate to sit for homework, this is the book for you. Kids will be begging to clean their room, their dinner plates and more with exciting activities such as Magnetic Morning Routines to help kids visualize their time and tasks to stay on track, Race to the Finish Dinnertime Gameboard to help even the pickiest eater find foods they like, Seated Silly Busters so even the wiggliest kid can get their work done, Weighted Snake Lap Buddies to calm fidgety legs and minds, Calming Glitter Slime to squash big worries, No-Sew Weighted Blanket to ensure a good night's rest and so much more. *The Superkids Activity Guide to Conquering Every Day* puts the power into kids' hands to understand themselves, discover their superpowers and have an awesome day every day.

Ships without a Shore Anne Pierce,2017-09-08 Childhood in America has changed and not for the better From day care for babies to the exhausting array of activities for children to the storm of lurid and violent shows now deemed appropriate for the

young to the expectation that teenagers build resumes childhood has been thoroughly redefined Anne R Pierce argues that this radical re definition has been embraced with remarkably little discussion about what children by nature need Pierce submits that we have latched onto opinions about childrearing that are potentially harmful to children If traditions are choices to be embraced or abandoned at our discretion and adult self fulfillment is a primary determinant in those choices the fundamentals of the well wrought childhood are easily forgotten Steeped in intellectual permissiveness we have convinced ourselves that parental substitutes are as good as parents themselves at caring for children that the concepts of nurture and of the maternal are archaic and irrelevant that more lessons and sports are better than less and that the earlier one embarks upon them the better and that innocence and knowledge are less important than worldly attitudes and competitive skills Understanding and challenging the theories and agendas behind childrearing trends is a pressing need and the subject of this book Pierce takes an honest look at the evidence on the effects of daycare and of hyper structuring children She gives voice to the many intelligent and estimable educators child development experts researchers and social commentators who are ignored because their conclusions are hard to bear Equally important Pierce says is attention to that inner tug of love and conscience which many of us have been programmed to ignore Modern American children are expected to adjust and to understand as adults would the complexities and vicissitudes of public as opposed to private life For them childhood is fast becoming a distant memory Could it be that America s thrust forward leaves children without a solid foundation upon which to grow This is the sobering question asked and answered in this challenging book

The Crisis of the Young African American Male in the Inner Cities: Topic papers submitted to the Commission United States Commission on Civil Rights,2000 Disabilities Martha E. Banks Ph.D.,Mariah S. Gover,Elizabeth Kendall,Catherine A. Marshall,2009-04-30 In this three volume set experts from around the world spotlight the latest research on physical and psychological disabilities as well as the social legal and political issues that come to bear on those people affected These authors teach us what the disabilities are how common they have become what challenges people with disabilities face what treatments are available and whether new promising efforts for rehabilitation are on the horizon We also learn in these volumes about social actions that have advanced human rights for people with disabilities in countries around the world Yet we learn that in these same countries discriminatory actions against people with disabilities continue to occur The impact of different cultural beliefs about disability are explored and these beliefs are juxtaposed against legislative responses In all three volumes people with disabilities share their personal narratives about events they have faced in society They provide rich examples of how culture social interactions and legislation can impact on people
