## **Superhighway To Wealth:**

Superhighway to Wealth Kristy S. Phillips, Kathleen B. Wilde, 1995      **Exiting the Global Economic Superhighway** Hideki Kato, 2023-11-27 This book tackles global economic and social issues from a perspective that may seem obvious but which no author has yet taken that we humans are living beings In today s artificially globalized world we have increasingly lost sight of our original humanity Despite the serious environmental social and political problems we are facing we cannot stop focusing on economic growth efficiency and liberalization In doing so we continue to make the world slicker and more unstable This book identifies these conventional values and ways of thinking as the root cause underlying many of today s challenges and it offers the perspective of a bumpier and more organic human existence that provides a greater sense of traction and stability The book begins with a discussion of global systems and structures proposing a world with two systems to limit the effects of artificially constructed globalization The second part examines the modern welfare state outlining a process to revive democracy and social capital by making social issues the business of everyday citizens The third and final part focuses on human well being emphasizing physicality and the Japanese concept of kata as keys to restoring our humanity Rather than searching for specific solutions through specialized knowledge this book makes use of the author s broad perspective acquired through many years of public policy research and reform It asserts that knowledge should be acquired through hands on experience and in studies based on real world situations involving people at the forefront of society s challenges whether politicians businesspeople scientists craftspeople or farmers In both its analysis of humanity s problems and the solutions it offers this book takes an entirely new yet utterly natural approach to steering humanity off the global economic superhighway      **Metaphors of the Web 2.0** Alexander Tokar, 2009 This study is an attempt to semantically decompose the most popular metaphorical expressions associated with two particular Web 2 0 practices social networks and folksonomies What is a friend on a social networking Web site like MySpace and StudiVZ Is it polite to poke strangers on Facebook and give them fives on hi5 How can we subscribe to RSS feeds if we don t pay subscription fees Do we really broadcast ourselves on our YouTube channels These and other similar questions are dealt with from the perspective of the referential and the conceptual approaches to meaning i e what these words stand for referential extensional approach and which concepts they signify conceptual intensional approach Thus from the referential point of view a friend on MySpace is only a hyperlink directing to a profile page of another MySpace user But from the intensional point of view a friend is a subscriber to the content generated by the profile owner      *The Innovation SuperHighway* Debra M Amidon, 2007-06-01 Debra M Amidon a worldwide pioneer in knowledge strategy once again leads you into the future by charting the intersection of knowledge management and innovation into a new frontier called Knowledge Innovation Groundbreaking and well researched The Innovation SuperHighway provides global insights into how you can use knowledge processes and tools to sustain high levels of innovation among all stakeholders to gain a competitive positioning The Innovation SuperHighway
