Superior Beings. If They Exist, How Would We Know? Steven Brams, 2007-08-06 The same is true of applications of game theory to history philosophy religion and the other humanities In particular I know of no attempts to apply game theory to the kinds of philosophy of religion and theology questions that I explored in *Superior Beings* By contrast the nexus between science and religion has been thoroughly analyzed using other methods of inquiry as evidenced by Charles L Harper Jr ed *Spiritual Information 100 Perspectives on Science and Religion* West Conshohocken PA Templeton Foundation Press 2006 a huge collection put together in honor of Sir John Templeton's ninetieth birthday Sir John through the Templeton Foundation is the primary proponent and the major benefactor of studies in science and religion today How science and religion are or are not connected is of course an old subject It is also a controversial one extending at least from Galileo's trial in 1633 to the teaching of evolution today While game theory is a mathematical theory *Superior Beings* is emphatically not a scientific work wherein a theory is tested Rather it is an attempt to interpret and explain important philosophical religious and theological questions in terms of the rational choices of ordinary human beings who are assumed to play games with a superior being The game theory I use is nonstandard *Superior Beings*, 1983 **Ten Suttas from Dīgha Nikāya**, 2025-02-27 The Dīgha Nikāya is the first division of the Sutta Pitaka and consists of thirty-four suttas grouped into three vaggas These long discourses highlight many aspects of the Buddha's teaching including morality causality perfect wisdom and mindfulness The suttas throw light on the social cultural religious and political conditions of ancient India during the time of the Buddha Ten Suttas from Dīgha Nikāya presents a selection of ten discourses Brahmajāla Sutta Samaññaphala Sutta Poṭṭhapada Sutta Mahānidāna Sutta Mahāparinibbāna Sutta Mahāsatipahāna Sutta Cakkavatti Sutta Saṃpasādanīya Sutta Pāṇātika Sutta and Sīgālaka Sutta They cover a wide range of topics and offer a comprehensive overview of the Buddha's teachings on various aspects of the spiritual path from the nature of reality and the causes of suffering to the cultivation of virtue and the attainment of enlightenment They provide valuable insights into the core principles of Buddhism and offer guidance for those seeking to follow the path to liberation **The Scots Magazine and Edinburgh Literary Miscellany**, 1817 *Fellow Creatures* Christine M. Korsgaard, 2018-06-18 Christine M Korsgaard presents a compelling new view of humans moral relationships to the other animals She defends the claim that we are obligated to treat all sentient beings as what Kant called ends in themselves Drawing on a theory of the good derived from Aristotle she offers an explanation of why animals are the sorts of beings for whom things can be good or bad She then turns to Kant's argument for the value of humanity to show that rationality commits us to claiming the standing of ends in ourselves in two senses Kant argued that as autonomous beings we claim to be ends in ourselves when we claim the standing to make laws for ourselves and each other Korsgaard argues that as beings who have a good we also claim to be ends in ourselves when we take the things that are good for us to be good absolutely and so worthy of pursuit The first claim commits us to joining with other autonomous beings in relations of moral

reciprocity The second claim commits us to treating the good of every sentient creature as something of absolute importance Korsgaard argues that human beings are not more important than the other animals that our moral nature does not make us superior to the other animals and that our unique capacities do not make us better off than the other animals She criticizes the marginal cases argument and advances a new view of moral standing as attaching to the atemporal subjects of lives She criticizes Kant's own view that our duties to animals are indirect and offers a non utilitarian account of the relation between pleasure and the good She also addresses a number of directly practical questions whether we have the right to eat animals experiment on them make them work for us and fight in our wars and keep them as pets and how to understand the wrong that we do when we cause a species to go extinct Environmentalism David Pepper, Frank Webster, George Revell, 2003

Religion, Economy, and Cooperation Ilkka Pyysiäinen, 2010-07-30 Why give money to beggars Why make sacrifices to help others The current volume targets such questions with the tools of neoclassical and behavioural economics philosophy and sociology of religion Both religion and economics are analyzed as social institutions that support human intra group cooperation Even if individuals are rational maximizers of personal utility they yet must take into account the reciprocal nature of human relationships It is better to be part of a cooperative group and make some personal sacrifices because in the end everybody benefits from this Sometimes the metaphor of an invisible hand is used to describe the fact that economic exchange seems to follow some rules that guarantee the best possible result for everyone In religion it is of course the hand of God that guides the world In both cases individuals are in a way playing against a superior being that always seems to win In this volume some of the cognitive mechanisms and cultural selective forces behind this are examined by specialists in different fields of science The first contributions analyze theoretical and methodological issues in later chapters developments in the European history are explored from the perspectives of sociology and economic theory **Nietzsche and Dostoevsky** Paolo Stellino, 2015-09-17 The first time that Nietzsche crossed the path of Dostoevsky was in the winter of 1886-87 While in Nice Nietzsche discovered in a bookshop the volume *L'esprit souterrain* Two years later he defined Dostoevsky as the only psychologist from whom he had anything to learn The second metaphorical encounter between Nietzsche and Dostoevsky happened on the verge of nihilism Nietzsche announced the death of God whereas Dostoevsky warned against the danger of atheism This book describes the double encounter between Nietzsche and Dostoevsky Following the chronological thread offered by Nietzsche's correspondence the author provides a detailed analysis of Nietzsche's engagement with Dostoevsky from the very beginning of his discovery to the last days before his mental breakdown The second part of this book aims to dismiss the wide spread and stereotypical reading according to which Dostoevsky foretold and criticized in his major novels some of Nietzsche's most dangerous and nihilistic theories In order to reject such reading the author focuses on the following moral dilemma If God does not exist is everything permitted A *Dictionary of the English Language* Samuel Johnson, 1805 **Miscellaneous Essays** Henry Thomas Colebrooke, 1837

Idealism and the Endgame of Theory Friedrich Wilhelm Joseph von Schelling, 1994-01-01 Three seminal philosophical texts by F W J Schelling arguably the most complex representations of German Idealism are clearly presented here for the first time in English Included are Schelling's Treatise Explicatory of the Idealism in the Science of Knowledge 1797 System of Philosophy in General 1804 and Stuttgart Seminars 1810 Of these texts the Treatise constitutes the most comprehensive critical reading of Kant and Fichte by a contemporary thinker and as a result proved seminal to Samuel Taylor Coleridge's efforts at interconnecting English Romanticism and German speculative thought Extending his early critique of subjectivity Schelling's System of Philosophy in General and his Stuttgart Seminars launch a far more radical inquiry into the notion of identity a term which for Schelling increasingly reveals the contingent nature and inescapable limitations of theoretical practice An extensive critical introduction relates Schelling's work both to his philosophical contemporaries Kant Fichte and Hegel as well as to the contemporary debates about Theory in the humanities The book includes extensive annotations of each translated text an excursus on Schelling and Coleridge a comprehensive multi lingual bibliography and a glossary

In Four Volumes. Vol. 1. [-4.]** ,1818 **The Heroic Heart** Tod Lindberg, 2015-09-08 What does it mean to be a hero In *The Heroic Heart* Tod Lindberg traces the quality of heroic greatness from its most distant origin in human prehistory to the present day The designation of hero once conjured mainly the prowess of conquerors and kings slaying their enemies on the battlefield Heroes in the modern world come in many varieties from teachers and mentors making a lasting impression on others by giving of themselves to firefighters no less willing than their ancient counterparts to risk life and limb They don't do so to assert a claim of superiority over others however Rather the modern heroic heart acts to serve others and save others The spirit of modern heroism is generosity what Lindberg calls the caring will a primal human trait that has flourished alongside the spread of freedom and equality Through its intimate portraits of historical and literary figures and its subtle depiction of the most difficult problems of politics *The Heroic Heart* offers a startlingly original account of the passage from the ancient to the modern world and the part the heroic type has played in it Lindberg deftly combines social criticism and moral philosophy in a work that ranks with such classics as Thomas Carlyle's nineteenth century *On Heroes Hero Worship and the Heroic in History* and Joseph Campbell's twentieth century *The Hero with a Thousand Faces* The Philosophy of Mary Astell Jacqueline Broad, 2015 Jacqueline Broad presents a new account of the philosophy of Mary Astell 1666 1731 which

situates Astell's feminist political and religious views in the context of her wider philosophical vision. She argues that at the heart of Astell's thought lies a theory of virtue which emphasises generosity of character, benevolence and moderation.

Aquinas on Beauty Christopher Scott Sevier, 2015-02-12. Aquinas on Beauty explores the nature and role of beauty in the thought of Thomas Aquinas. Beginning with a standard definition of beauty provided by Aquinas, it explores each of the components of that definition. The result is a comprehensive account of Aquinas's formal view on the subject, supplemented by an exploration into Aquinas's commentary on Dionysius's Divine Names, including a comparison of his views with those of both Dionysius and those of Aquinas's mentor, Albert the Great. The book also highlights the tight connection in Aquinas's thought between aesthetics and ethics and illustrates how Aquinas preserves what is best about aesthetic traditions preceding him and anticipates what is best about aesthetic traditions that would follow, marrying objective and subjective aesthetic intuitions and charting a kind of *via media* between the common extremes. *Requirement for Consent, Form #05.003*

Metaphor and Intercultural Communication Andreas Musolff, Fiona MacArthur, Giulio Pagani, 2014-05-20. Metaphor and Intercultural Communication examines in detail the dynamics of metaphor in interlingual contact, translation and globalization processes. Its case studies, which combine methods of cognitive metaphor theory with those of corpus-based and discourse-oriented research, cover contact, linguistic and cultural contacts between Chinese, English, including Translational English and Aboriginal English, Greek, Kabyle, Romanian, Russian, Serbian and Spanish. Part I introduces readers to practical and methodological problems of the intercultural transfer of metaphor through empirical, corpus-based and experimental studies of translators' experiences and strategies in dealing with figurative language in a variety of contexts. Part II explores the universality/relativity dimension of cross and intercultural metaphor on the basis of empirical data from various European and non-European cultures. Part III investigates the socio-economic and political consequences of figurative language use through case studies of communication between aboriginal and mainstream cultures in the media, in political discourse and gender-related discourses. Special attention is paid to cases of miscommunication and of deliberate re- and counter-conceptualisation of clichés from one culture into another. The results open new perspectives on some of the basic assumptions of the classic cognitive paradigm, e.g. regarding metaphor, understanding linguistic relativity and concept construction. *The Theosophist*, 1889.
