he argues that the age of fitness truly emerged as part and parcel of our contemporary neoliberal era Neoliberalism enjoins individuals to work on themselves to cultivate themselves in body and mind Fitness becomes a guiding principle of social life an era defining network of discourses and practices that shape individuals actions and self conceptions The pursuit of fitness becomes a cultural repertoire that is deeply ingrained in our institutions and way of life This wide ranging book shows how deeply fitness is inscribed in modern societies and how important fitness has become to success or failure recognition or exclusion in a society that sets great store by self responsibility performance market and competition It will be of great value not only to those interested in sport and fitness but also to anyone concerned with the conditions of success and failure in our societies today
