engagement between the West and others While drawing on his personal long term field experience in Africa the author cites contemporary scholarly Western literature on philosophy anthropology religion and beyond Ironically the West which values dualism instead of seeking to share it with majority world people wrongly presupposes its universality A proactive compliance to the countering of racism and to the demotion of impacts of human imagination on understanding contribute to this Effective education must be from known to unknown this text emphasizes Enabling African people to build understanding on their own epistemological foundations might be more important than exporting of pre packaged languages and educational systems from the West
