Supersenses Our Potential For Parasensory Experience:

Supersenses Charles Panati, 1976 **The Haunting of Twentieth-Century America** William J. Birnes, Joel Martin, 2011-09-13 In this sequel to *The Haunting of America* national bestselling authors Joel Martin and William J. Birnes bring up to the present the story of how paranormal events influenced and sometimes even drove political events. In unearthing the roots of America's fascination with the ghosts, goblins, and demons that possess our imaginations and nightmares, Martin and Birnes show how the paranormal has driven America's political, public, and military policies. The authors examine the social history of the United States through the lens of the paranormal and investigate the spiritual events that inspired momentous national decisions: UFOs that frightened the nation's military into launching nuclear bomber squadrons toward the Soviet Union; out-of-body experiences used to gather sensitive intelligence on other countries; and even spirits summoned to communicate with living politicians. *The Haunting of Twentieth-Century America* is a thrilling, evidence-based exploration of the often unexpected influences of the paranormal on science, medicine, law, the government, the military, psychology, theology, death and dying, spirituality, and pop culture. Psychics, Sensitives and Somnambules Rodger I. Anderson, 2015-01-27 Claimants of paranormal abilities have always attracted controversy and fascination, and sometimes rigorous study by scientists. Charles Bailey, an Australian medium, was seemingly able to materialize different objects, animate and inanimate, under conditions which made it difficult to conceive how they could have been normally produced. Sumitra Singh, a woman of Northern India, who in 1984 became subject to epileptic-type seizures, claimed to be possessed by spirits of the dead. Franck Kluski was a Polish poet, banker, and physical medium who specialized in both human and animal materializations. This biographical dictionary contains profiles of 330 psychics worldwide, from Tony Agpaoa to Elenor Zugun, each accompanied by a bibliography listing the primary sources consulted. The primary focus is on those claimed psychics who have figured prominently in the history of the subject, though some lesser-known figures are included to show how rich, varied, and colorful that history has been. The aim throughout is to present each case as fairly and dispassionately as the facts allow, with a particular eye for accuracy in details and

presentation The approach is historical not apologetic or accusatory making the work ideally suited as a permanent reference
