**Body as Evidence** Janell Hobson, 2012-10-11 In *Body as Evidence* Janell Hobson challenges postmodernist dismissals of identity politics and the delusional belief that the Millennial era reflects a postracial and postfeminist world Hobson points to diverse examples in cultural narratives which suggest that new media rely on old ideologies in the shaping of the body politic *Body as Evidence* creates a theoretical mash up of prose and poetry to illuminate the ways that bodies still matter as sites of political cultural and digital resistance It does so by examining various representations from popular shows like *American Idol* to public figures like the Obamas to high profile cases like the Duke lacrosse rape scandal to current trends in digital culture Hobson's study also discusses the women who have fueled and retooled twenty first century media to make sense of antiracist and feminist resistance Her discussions include the electronica of Janelle Monáe and Björk the feminist film *odysseys* of Wanuri Kahiu and Neloufer Pazira and the embodied resistance found simply in raising one's voice in song creating a blog wearing a veil stripping naked or planting a tree Spinning knowledge out of this information overload Hobson offers a global black feminist meditation on how our bodies mobilize destabilize and decolonize the meanings of race and gender in an increasingly digitized and globalized world

Miller, 2008 Life is very much a project in the United States but not a straightforwardly individual one A duality of individual free choice and disciplinary institutional governance is the grand national paradox Simply being leading life without a bumper sticker avowing one's elective institutional affinities seems implausible in a country consumed by the makeover the idea that what you were born as need not define you forever As Toby Miller writes in his introduction I come neither to bury the makeover nor to praise the makeover but to criticize it even as I stand alternately bewildered amused appalled and attracted by it In Makeover Nation he does just that in a witty no holds barred style Miller looks at the power of various forms of knowledge about people and their emotions as they have been applied to the US population from talk therapy to drug treatment He is particularly interested in young people in examining how childhood is constructed and pays close attention to the much favored and overused diagnosis and treatment of ADHD ADD He also focuses his attention on metrosexuals and right wing Christians to disclose how these opposing groups manifest their drive toward self creation Miller believes that we must question the pleasures of reinvention even as we embrace them [TV Guide](#), 2007

of the self In my personal opinion it often feels like an exaggerated form of self indulgence resembling a glorified expression of self gratification This self centered narrative of glory does not limit itself to mere me and mine but extends to the whole nine damn chakras and then shoots through the enlightened infinity and beyond Hence it is rare to come across autobiographies that genuinely explore the harmonious interaction between the individual and society offering readers the joy of witnessing the writer s selfless engagement and integration with their community rather than with the self It perplexes me how someone with a profound understanding of the soul can write such egocentric tales in the name of selfless soul philosophy Indeed it is challenging for anyone within a society or community to comprehend such self centered life stories Therefore my tale does not revolve around extraordinary souls or unnatural superhumans It is a familiar story of a curious child who grew up observing the fundamental aspects of society and striving to find their place within the community much like you me or any average individual      *The DNA of Customer Experience* C.
