

☐ Superstar Homework ☐

- ☐ Superstar homeworks allow every child to choose how much homework they will do nightly.
- ☐ Your child can choose to work less after 4 or 5 or 6 or 7 stars nightly.
- ☐ Your child will be completing no more than 10 stars per 5 minutes (10 stars or more stars is reward). Therefore, it is recommended they do all their homework nightly to help us reach our star goal.
- ☐ For the **first week of school** students will be asked to only do the first 10 stars and then the homework. It is a participation award. Please participate and show us that we can do it right away!

Inspirational Untold Stories of Secondary Mathematics Teachers Alice F. Artzt, Frances R. Curcio, 2020-08-01 Personal story telling is a powerful and interesting medium through which one can share experiences insights successes and difficulties in meaningful contexts Teaching in general and mathematics teaching in particular is much more than what meets the eye Most people have only experienced teaching from the vantage point of a student and have impressions of teachers and teaching that are simplistic and usually totally incorrect The lives of mathematics teachers are varied and contrary to what one might think they are The journeys of exemplary in service teachers are not linear there are many bends potholes and detours through which they have navigated The road conditions of teaching are fodder for the 12 untold stories collected in this volume whose authors graduated from a special four year undergraduate mathematics teacher preparation program containing innovative components many of which are revealed through the experiences described in their stories The range of narratives vary in every possible way from the reasons they became mathematics teachers to the number of years teaching to the experiences encountered while teaching to the different roles they have assumed throughout their careers Nevertheless one strand permeates all of the stories their passion for what they do and their ability to reflect on early college experiences that contribute to their performance These inspiring narratives will shed light on the developmental processes of mathematics teachers what it means to teach mathematics and the components of a secondary mathematics teacher preparation program that can contribute to their expertise Praise for *The Inspirational Untold Stories of Secondary Mathematics Teachers* This lovely book contains personal stories about the process of becoming a mathematics teacher and the challenges and rewards of the early years of teaching These stories highlight that the path to teaching is often indirect rocky and filled with doubts But these poignant stories are powerful because they are so honest I wish I d read these stories before I experienced some of the joys and challenges of my early years of teaching because they would have prepared me for

the roller coaster of emotion associated with entering this complex but beautiful profession I think these stories will be helpful when working with prospective and early career teachers Randolph Philipp Professor of Mathematics Education School of Teacher Education San Diego State University Immediate Past President Association of Mathematics Teacher Educators AMTE This is a book about real people and true stories the narratives are really insightful and truly inspirational It is not only a book that those involved in teacher preparation programs may find useful and informative to read but also a book that could provide insights and inspiration to those who are exploring what it is like to be a teacher The journey of each of these success stories despite the diverse starting point of each speaks volumes of the importance of an effective teacher preparation program that not only nurtures but also provides support for the growth of the preservice teachers The narratives in this book are certainly a testimonial to what we often hear Teachers are more often made than born Ngan Hoe Lee Associate Professor Mathematics Mathematics Education National Institute of Education Singapore

Outstanding Lesson Ahead Amy Sargent, 2015-05-19 Most teachers will admit they are like magpies always looking for some new and shiny teaching ideas to apply in their classroom If you too cannot go to a budget shop without buying something you think you could adapt in your classroom if you are always looking for inspiration an idea to steal or adapt to engage your students look no further this guide is definitely for you Books in education are usually dry academic encyclopaedias full of boring and sometimes unnecessary literature This book will just fire your imagination with its thought provoking style It has all the ingredients you need to deliver an outstanding lesson It provides both aspiring and current teachers with suggestions ideas and techniques to incorporate in their lessons which capture the importance of mind set and creativity The strategies are suitable for any level of teacher any year group and any subject because there is nothing worse than buying a book and finding that all the strategies are only really suited to one particular subject Simply dip in and out when you feel you need to refresh your classroom practice Join the journey to being an outstanding teacher today with outstanding learners
