Davis, 1969-04-01 Research about justice for individual parties has been primarily concerned with the content of rules and
principles and has insufficiently tried to penetrate discretionary justice as meted out by police prosecutors and other
administrators In this groundbreaking study Kenneth Culp Davis dispels the prevailing notion that discretionary justice is too
elusive for scholarly investigation Davis advances proposals for badly needed reforms in our system of discretionary justice
and lays the groundwork for further empirical and philosophical studies Our jurisprudence of statutes and of judge made law
says Davis is overdeveloped our jurisprudence of administrative justice of police justice of prosecutor justice of discretionary
justice is under developed We need a new jurisprudence that will encompass all of justice not just the easy half of it

remain highly responsive to social needs *Administrative Justice in Context* Michael Adler, 2010-04-30 This book comprises
a definitive collection of papers on administrative justice written by a set of very distinguished contributors It is divided into

of contextual changes on administrative justice and considers the implications of changes in governance and public

administration management and service delivery information technology audit and accounting and human rights for administrative justice The second part deals with conceptual issues and describes a number of competing approaches to the administrative justice The third part deals with the application of administrative justice principles to private law disputes while the fourth part deals with the distinctive characteristics of administrative justice in three other jurisdictions The final part deals with current developments in administrative justice and the book concludes with a discussion of legislative and policy developments in the UK The general approach of the book is socio legal and interdisciplinary The chapters adopt a variety of disciplinary perspectives including those derived from political science public policy social policy accounting and information technology as well as from law Although most of the contributors are academics some are practitioners For these reasons the book should be of interest to lawyers particularly those with interests in administrative law and to social scientists particularly those with interests in public administration public policy and public management

The Oxford Handbook of Administrative Justice Marc Hertogh, Richard Kirkham, Robert Thomas, Joe Tomlinson, 2022 The core animating feature of administrative justice scholarship is the desire to understand how justice is achieved through the delivery of public services and the actions inactions and decision making of administrative bodies The study of administrative justice also encompasses the redress systems by which people can challenge administrative bodies to seek the correction of injustices For a long time now scholars have been interested in administrative justice but without necessarily framing their work as such Rather than existing under the rubric of administrative justice much of the research undertaken has existed within sub categories of disciplines such as law sociology public policy politics and public administration Consequently although aspects of the topic have attracted rich contributions across such disciplines administrative justice has rarely been studied or taught in a manner

that integrates these areas of research more systematically This Handbook signals a major change of approach Drawing together a group of world leading scholars of administrative justice from a range of disciplines The Oxford Handbook of Administrative Justice shows how administrative justice is a vibrant complex and contested field that is best understood as an area of inquiry in its own right rather than through traditional disciplinary silos The Principle of Effective Legal Protection in Administrative Law Zoltán Szente, Konrad Lachmayer, 2016-08-05 This collection presents a comparative analysis of the principle of effective legal protection in administrative law in Europe It examines how European states consider and enforce the related requirements in their domestic administrative law The book is divided into three parts the first comprises a theoretical introductory chapter along with perspectives from International and European Law part two presents 15 individual country reports on the principle of effective legal protection in mostly EU member states The core function of the reports is to provide an analysis of the domestic instruments and procedures Adopting a contextual approach they consider the historical political and legal circumstances as well as analysing the relevant case law of the domestic courts the third part provides a comparative analysis of the country reports The final chapter assesses the influence and relevance of EU law and the ECHR The book thus identifies the most important trends and makes a valuable contribution to the debate around convergence and divergence in European national administrative systems The Open Access version of this book available at <https://www.taylorfrancis.com/books/principle-effective-legal-protection-administrative-law-zoltan-szente-konrad-lachmayer-e-1043249781315553979> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license A Guide to Material on Crime and Criminal Justice Augustus Frederick Kuhlman, Social Science Research Council (U.S.).
