Support For Families Helping Children With Learning Difficulties:

Support for Families Peter Burke, Katy Cigno, 1996 Despite many studies of families where there is a child with a learning disability it is clear that such children do not from the beginning of their life enjoy the same opportunities as others inequality is also experienced by their carers almost always parents in their day to day lives This study through the views of carers considers the formal and informal networks used by families The book is in two parts Part one reviews the literature and introduces the research Part two gives basic qualitative and quantitative information about the subjects of the study includes detailed care studies and examines the kind of support received This provides a picture of the resources families use and helps identify gaps in the support that is available The book concludes with the arguments for a holistic approach to services for families and looks at what remains to be done to meet their needs **Helping Children Deal with Difficult Issues**, 2007

Supporting Children with Learning Difficulties Christine Turner, 2011-08-11 How do you teach history to a child who can't remember what she had for dinner What difference will it make to a child's counting skills if you place the objects in a line rather than dropped randomly on the table Will breaking down a task into smaller steps help a young person learn how to dress himself Children with learning disabilities do not follow set patterns of learning and yet often they are expected to learn in the same way as their non disabled peers Christine Turner draws on 25 years experience gained from teaching children with severe profound and multiple disabilities to provide an introduction to learning disabilities and the effect they have on the individual and the family She proposes holistic strategies to ensure that every child makes progress regardless of the extent of their disability All aspects of learning from the simplest forms of non verbal communication to the way ICT can motivate and inspire are explored in this practical and informal guide for anyone wanting to support a child with learning difficulties Cognitive-behavioural Social Work in Practice Katy Cigno, Diana Bourn, 2017-07-05 Cognitive

Behavioural Social Work in Practice appears at an interesting time for social work and social services More than ever practitioners are required to provide evidence for the effectiveness of what they do while the rights of service users to ethically competent practice in which they are partners is high on the agenda Drawing on a wide area of research as well as the practice experience of its 18 contributors it covers a broad range of cognitive behavioural intervention with different client groups in a variety of settings including child care family work probation and offending behaviour mental health disability and issues concerning older people The first chapter sets out lucidly the theoretical and research basis for cognitive behavioural practice and is rich in case examples Each subsequent chapter adopts a case study approach to its subject either by providing a single case study or by the detailed exploration of an area of practice combined with case examples The volume is unique in not only bringing together practitioners and academics but in presenting the work of the academic reflective practitioner It is thus an accessible informative guide for professionals students and educators who with all their working pressures and constraints strive to provide help based on best evidence *Helping Children with Learning*

Disabilities Dr. Tabitha Muteti, 2025-01-03 Dr Muteti's dedication to educating parents and caregivers about learning disabilities is evident in this comprehensive guide which integrates a wide range of strategies and interventions. The authors position learning disabilities as just one of many types of learning challenges focusing on how society and schools can address these issues effectively. They emphasize current and evolving assessment and intervention approaches making this book an essential resource for those seeking to support learners. The unique reader friendly organization ensures that both specialized topics and basic concepts are covered without disrupting the flow making it an accessible and invaluable tool for parents and caregivers alike. Develyn Biagas Ph D Special Education can offer students the opportunity to learn school subjects regardless of a student's disability in other words it can be the great equalizer that can get students with diagnosed disabilities or learning impairment issues to have the same opportunity for learning as their peers. This is a great intended goal however there is a lack of knowledge in our communities about Special Education and how it can be used for the benefit of students. This book provides the guidance needed to navigate the Special Education arena it is written by boots on the ground authors with many years of experience in this field. By the time you are finished you will be an expert in the field of Special Education.
