Supporting Ict In The Early Years:

EBOOK: Supporting ICT in the Early Years John Siraj-Blatchford, David Whitebread, 2003-10-16 This book is an excellent resource for gaining understanding about the fundamental principles of ICT in the Foundation Stage curriculum. The principles of good practice in this book will not be outdated by new products or trends. The book is a well balanced blend of theory and application. It has certainly helped to provoke and resolve ideas about the use of ICT in our settings. Nursery World. This book helps readers understand how very young children from birth to six develop an early awareness and subsequently develop their knowledge skills and understandings of information and communication technologies (ICTs). The rapid growth of ICT has prompted concerns among parents, educators and policy makers over the suitability of many educational applications and electronic toys for young children. However, evidence is presented to show that the use of ICT by young children is compatible with the principles of a developmentally appropriate curriculum (DAC). In fact, the authors argue that used imaginatively, many applications of ICT can make a significant and unique contribution to children's social and cognitive development. This is a significant book for students, parents, carers, teachers and other professionals who want to provide a rich learning environment in education and in teaching and supervising research in the early years. **Supporting**

ICT in the Early Years John Siraj-Blatchford, David Whitebread, 2003-10-01 The primary aim of this new volume in the Supporting Early Learning series is to help readers understand how very young children from birth to six develop an early awareness and subsequently develop their knowledge skills and understandings of information and communication technologies (ICTs). The rapid growth of ICT has prompted concerns among parents, educators and policy makers over the suitability of many educational applications and electronic toys for young children. However, evidence is presented to show that the use of ICT by young children is compatible with the principles of a developmentally appropriate curriculum (DAC). In fact, the authors argue that used imaginatively, many applications of ICT can make a significant and unique contribution to children's social and cognitive development. The authors show how parents and other carers, teachers and other professionals are already providing a rich learning environment in this area of experience. *Supporting Ict In The Early Years*

on Empowering Early Childhood Educators With Technology Burris, Jade, Rosen, Dina, Karno, Donna, 2021-06-18

Computers and mobile technologies have become widely adopted as sought after tools in the field of education. The prevalence of technology in early childhood education (ECE) is increasing and teachers both pre-service and in-service are using best practices to integrate tools effectively to improve teaching and learning within the field. This includes settings such as childcare centers, family childcare, and community programs that have both educators and administrators adapting to the use of technology. Therefore, it has become critical to research and explore the best practices of technology integration and successful strategies to improve the use of technology in ECE. The Handbook of Research on Empowering Early Childhood Educators With Technology examines best practices that focus specifically on those that facilitate the development of competencies in teaching young children birth to age 8 and technology integration. The chapters include information on the foundations of technology in early childhood education, content-specific technology applications, developmentally appropriate practices (DAP) for learners using technology, and how to meet diverse learner needs with technology. The target audience for this book is early childhood professionals, teacher educators, pre- and in-service teachers in early childhood settings, faculty, and researchers in the field of education, instructional technologists, childcare and elementary school administrators, early education policy organizations, and advocacy groups that are interested in the best practices and successful strategies for implementing technology in ECE.

Teaching and Learning in the Early Years David Whitebread, Penny

Coltman, 2015-02-20. This best-selling text book provides a broad-ranging and up-to-date review of thinking and best practice within nursery and infant education. Written around the basic truth that an effective early years curriculum must start with the children, their needs, and their potential, the contributors to this classic text acknowledge that learning must have a strong element of fun, wonder, and excitement. Fully revised and updated in light of recent changes to the Early Years curriculum, with brand new chapters on assessment, communication, writing, creativity, and diversity, the contributors address a range of fundamental issues and principles, including an analysis of research into how children learn, discussions of issues such as classroom organisation, curriculum management, and assessment, a detailed section on play and language, chapters covering individual curriculum areas, including new chapters on music and PSHE. Each chapter combines a review of important principles with practical and inspiring classroom examples throughout. It is essential reading for all Foundations Stage and KS1 trainee teachers, their tutors and mentors, and serving teachers working in the 3-7 age range who wish to reflect upon and develop their practice.
