**The supreme doctrine (La doctrine suprême, engl.) Psychological studies in Zen thought** Hubert Benoit, Terence Gray, 1955 [The Supreme Doctrine](#) H. Benoit, 2013-08-21

With an Introduction by Aldous Huxley In its Eastern aspects Chinese Hindu and Japanese Zen Buddhism has proved a puzzle although a stimulating one to the Western mind Himself a Westerner Dr Benoit has approached it through an occidental manner of thinking For the first time Dr Benoit presents the traditional doctrine of Zen Buddhism in a language that is understandable to the Western world says one of his Indian admirers Swami Siddheswarananda The author does not advocate a conversion to Eastern religion and philosophy Rather he would have Western psychological thinking and reasoning meet with oriental wisdom on an intellectual plane in order to make it participate in the oriental understanding of the state of man in general I do not need to burn the Gospels in order to read Hui neng says Dr Benoit Zen to be quite exact is not so much a doctrine as a hygiene of intelligent living As such it is presented by the author a practicing psychoanalyst It is a way of breaking the deadlock into which the faulty functioning of our civilization has led us of liberating us from the prevalent contemporary sickness anxiety This book provides the elements for reaching satori that modification of the internal functioning of man which can be described as a state of unassailable serenity This state Dr Benoit makes clear is he truly normal one How to develop intelligence and will so that this transformation of life can be achieved is the subject of this book

*Zen Catholicism* Aelred Graham, 1994 The author s reflection upon Zen Buddhism and Catholicism has shown many points of contact between them in spite of their divergent rituals and philosophies Although he warns against the weaknesses of Zen he urges Westerners in general and Catholics in particular to draw from its strengths suggesting that the harmony Zen points to at the heart of religion could bring the West freedom from unnecessary anxiety and a new awareness of the peace of God

**Existence and Enlightenment in the Laṅkāvatāra-Sūtra** Florin Giripescu Sutton, 1991-01-01 This book offers a systematic analysis of one of the most important concepts characterizing the Yogic School of Buddhism the last creative stage of Indian Buddhism as outlined and explained in one of its most authoritative and influential texts Laṅkāvatāra Sūtra Compiled in the second half of the fourth century A.D. this sutra not only represents a comprehensive synthesis of both early and late religious philosophical ideas crucial to the understanding of Buddhism in India but it also provides an insight into the very early roots of the Japanese Zen Buddhism in the heart of the South Asian esotericism The first part of the book outlines the three-fold nature of Being as conceptualized in Buddhist metaphysics The author uses an interpretive framework borrowed from the existentialist philosophy of Heidegger in order to separate the transcendental Essence of Being from its Temporal manifestation as Self and from its Spatial or Cosmic dimension The second part clarifies the Buddhist approach to knowledge in its religious transcendental sense and it shows that the Buddhists were actually first in making use of dialectical reasoning for the purpose of transcending the contradictory dualities imbedded in the common ways of perceiving thinking and arguing about reality

*Eihei Dogen: Mystical Realist* Hee-Jin Kim, 2012-06-25 Eihei Dogen the founder of the Japanese branch of the Soto Zen Buddhist school is considered one of the world's most remarkable religious philosophers Eihei Dogen Mystical Realist is a comprehensive introduction to the genius of this brilliant thinker This thirteenth century figure has much to teach us all and the questions that drove him have always been at the heart of Buddhist practice At the age of seven in 1207 Dogen lost his mother who at her death earnestly asked him to become a monastic to seek the truth of Buddhism We are told that in the midst of profound grief Dogen experienced the impermanence of all things as he watched the incense smoke ascending at his mother's funeral service This left an indelible impression upon the young Dogen later he would emphasize time and again the intimate relationship between the desire for enlightenment and the awareness of impermanence His way of life would not be a sentimental flight from but a compassionate understanding of the intolerable reality of existence At age 13 Dogen received ordination at Mt Hiei And yet a

question arose As I study both the exoteric and the esoteric schools of Buddhism they maintain that human beings are endowed with Dharma nature by birth If this is the case why did the buddhas of all ages undoubtedly in possession of enlightenment find it necessary to seek enlightenment and engage in spiritual practice When it became clear that no one on Mt Hiei could give a satisfactory answer to this spiritual problem he sought elsewhere eventually making the treacherous journey to China This was the true beginning of a life of relentless questioning practice and teaching an immensely inspiring contribution to the Buddhadharma As you might imagine a book as ambitious as Eihei Dogen Mystical Realist has to be both academically rigorous and eminently readable to succeed Professor Hee Jim Kim s work is indeed both Pneumatology and the Christian-Buddhist Dialogue Amos Yong,2012-07-26 This project at the interface of Buddhist Christian studies comparative theology and Christian systematic theology proceeds by way of exploring questions related to the presence and activity of the Holy Spirit in a 21st century world of many faiths *Gurdjieff Reconsidered* Roger Lipsey,2019-02-05 From a master biographer and longtime Gurdjieff practitioner a brilliant new exploration of the quintessential Western esoteric teacher of the twentieth century The Greek Armenian teacher G I Gurdjieff was one of the most original and provocative spiritual teachers in the twentieth century West Whereas much work on Gurdjieff has been either fawning or blindly critical acclaimed scholar and writer Roger Lipsey balances sympathetic interest in Gurdjieff and his Fourth Way teachings with a historian s sense of context and a biographer s feel for personality and relationships Using a wide range of published and unpublished sources Lipsey explores Gurdjieff s formative travels in Central Asia his famed teaching institution in France the development of the Gurdjieff Movements and music and above all Gurdjieff s fascinating continuous evolution as a teacher Published on the 70th anniversary of Gurdjieff s death *Gurdjieff Reconsidered* delves deeply into Gurdjieff s writings and those of his most important students including P D Ouspensky and Jeanne de Salzmann Lipsey s comprehensive approach and unerring sense of the subject make this a must read for anyone with a serious intention to explore Gurdjieff s life teachings and reputation **Buddhist Philosophy** David J. Kalupahana,1984-07-01 This introduction to Buddhism examines its basic philosophical teachings and historical development setting forth complex and significant ideas in a straightforward and simple style that is easily accessible to the student The author s orientation is philosophical rather than religious or sociological This approach is both the uniqueness and the strength of the work Part I outlines the historical background out of which Buddhism arose and emphasizes the teachings of early Buddhism Part II examines developments in the history of Buddhist thought and the emergence of the various schools of Buddhism **Buddhism** Kevin Trainor,2004 In this strikingly illustrated and authoritative volume readers have an introduction to one of the world s greatest living faiths 200 color photos maps drawings *Dōgen and the Kōan Tradition* Steven Heine,1994-01-01 This book has three major goals in critically examining the historical and philosophical relation between the writings of D gen and the Zen koan tradition First it introduces and evaluates recent Japanese scholarship concerning D gen s two Sh b genz texts the Japanese Kana collection

of ninety two fascicles on Buddhist topics and the Chinese Mana collection of three hundred koan cases also known as the Shōbōgenzō Sanbyakusoku. Second it develops a new methodology for clarifying the development of the koan tradition and the relation between intellectual history and multifarious interpretations of koan cases based on postmodern literary criticism. Third the book's emphasis on a literary critical methodology challenges the conventional reading of koans stressing the role of psychological impasse culminating in silence.
