*Recognition and Enforcement of Judgments in Civil and Commercial Matters* Anselmo Reyes, 2019-09-19 This collection offers a study of the regimes for the recognition and enforcement of foreign commercial judgments in 15 Asian jurisdictions mainland China Hong Kong Taiwan Japan Korea Malaysia Singapore Thailand Vietnam Cambodia Myanmar the Philippines Indonesia Sri Lanka and India For practising lawyers the book is intended as a practical guide to current law and procedures for enforcing judgments in the selected jurisdictions However it does not stop at describing current law and practice Of interest to academics and students it also analyses the common principles of the enforcement regimes across the jurisdictions and identifies what should be regarded as the norm for enforcement in Asian countries for the purpose of attracting foreign direct investment and catalysing rapid economic development In light of the common principles identified the book explores how laws in Asia may generally be improved to enable judgments to be more readily enforced while ensuring that legitimate concerns over indirect jurisdiction due process and domestic public policy are respected and addressed With this in mind the book discusses the potential impact that the adoption of the 2005 Hague Convention on Choice of Court Agreements might have on Asian jurisdictions it also considers the potential impact of the convention for the enforcement of judgments in civil and commercial matters presently being drafted by the Hague Conference on Private International Law This timely book argues

that it is imperative to adopt a uniform system for the recognition and enforcement of judgments throughout Asia if there is to be traction for the enhanced cross border commerce that is expected to result from endeavours such as the ASEAN Economic Community AEC the Belt and Road Initiative BRI CPTPP also known as TPP 11 and RCEP *Judicial Decision-Making in a Globalised World* Elaine Mak, 2014-07-04 Why do judges study legal sources that originated outside their own national legal system and how do they use arguments from these sources in deciding domestic cases Based on interviews with judges this book presents the inside story of how judges engage with international and comparative law in the highest courts of the United Kingdom Canada the United States France and the Netherlands A comparative analysis of the views and experiences of the judges clarifies how the decision making of these Western courts has developed in light of the internationalisation of law and the increased opportunities for transnational judicial communication While the qualitative analysis reveals the motives that judges claim for using foreign law and the influence of globalist and localist approaches to judging the author also finds suggestions of a convergence of practices between the courts that are the subject of this study This empirical analysis is complemented by a constitutional theoretical inquiry into the procedural and substantive factors of legal evolution which enable or constrain the development and possible convergence of highest courts practices The two strands of the analysis are connected in a final contextual reflection on the future development of the role of Western highest courts *The Constitution of Poland* Miroslaw Granat, Katarzyna Granat, 2019-11-28 This book focuses on the Polish Constitution of 1997 concentrating on its structure its substance and some of the institutional choices made by the drafters The core of the Constitution is similar to other liberal democratic constitutions but in addition it regulates a number of issues such as public finances and sources of law that are new to Polish constitutionalism and to constitutionalism in general It considers in a detailed manner certain institutional choices made in the Constitution such as the bicameral parliament the peculiar structure of the executive branch as well as the principle of independence of courts and judges fundamental rights and local government The book is a vital resource for all those interested in Poland's Constitution and the rich comparative constitutional insights the country offers In addition to explaining the 1997 Constitution in its political historical and social context the book tackles the radical changes in particular within the judicial branch introduced by the new governing majority since 2015 These new regulations constitutional in character but without formally changing the Constitution challenged the rule of law a key component of membership in the European Union Despite the negative nature of these recent developments the anchoring of Polish constitutional law in European constitutionalism presents a source of optimism that the 1997 Constitution will regain its position as the supreme law of the state United States Code United States, 2012

**Constitutional Remedies in Asia** Po Jen Yap, 2019-03-07 Many jurisdictions in Asia have vested their courts with the power of constitutional review Traditionally these courts would invalidate an impugned law to the extent of its inconsistency with the constitution In common law systems such an invalidation operates immediately and retrospectively and courts in

both common law and civil law systems would leave it to the legislature to introduce corrective legislation. In practice however both common law and civil law courts in Asia have devised novel constitutional remedies often in the absence of explicit constitutional or statutory authorisation. Examining cases from Hong Kong, Bangladesh, Indonesia, India and the Philippines, this collection of essays examines four novel constitutional remedies which have been judicially adopted: Prospective Invalidation, Suspension Order, Remedial Interpretation and Judicial Directive, that blurs the distinction between adjudication and legislation.

*Learning Legal Reasoning* John Delaney, 1987. Publisher description: This widely used book in many printings begins with answers to forty commonly asked questions of first year law students. It specifies a six step approach to briefing a case with specific guidelines for accomplishing each step. The process of briefing cases is then demonstrated with excellent and poor briefs of increasing complexity. Emphasis is placed initially on the techniques of briefing as an introduction to the learning of legal reasoning, the first priority of the first year of law school. In addition, the book also demonstrates the relevance of more advanced modes of legal reasoning including positivist, pragmatic, policy oriented, natural law and other perspectives applied in decoding and understanding cases. In its introduction of jurisprudential perspectives, *Learning Legal Reasoning* transcends the typical technical positivist orientation of most first year materials.
